So, you have a pony sweetheart, eh?
I admit I'm a bit surprised...

It's... it's nothing, really...

Wait, hold on, "nothing?"
But you were so-

orphan-grace asked: ignore answer

Don't forget about opal crab... It's still in the TARDIS somewhere and you don't want jack to find it on his own. Lord knows what would happen.

ask-discored-skyling asked: ignore answer

Are you going to tell Jack about that "thing" that lives in the TARDIS?

askblacklightthepony asked: ignore answer

So Doctor, are you ever going to tell Jack about Opalcrab? I mean if he's going to be in the TARDIS he should know what that thing is and does. You of all ponies should know this.

ask-the-bad-endings asked: ignore answer

Now that I think about it, where has Opal been all this time? Jack may take an interest in her...him...or er... "it". Heheh.

Oh, she likes you!

...She REALLY likes you.

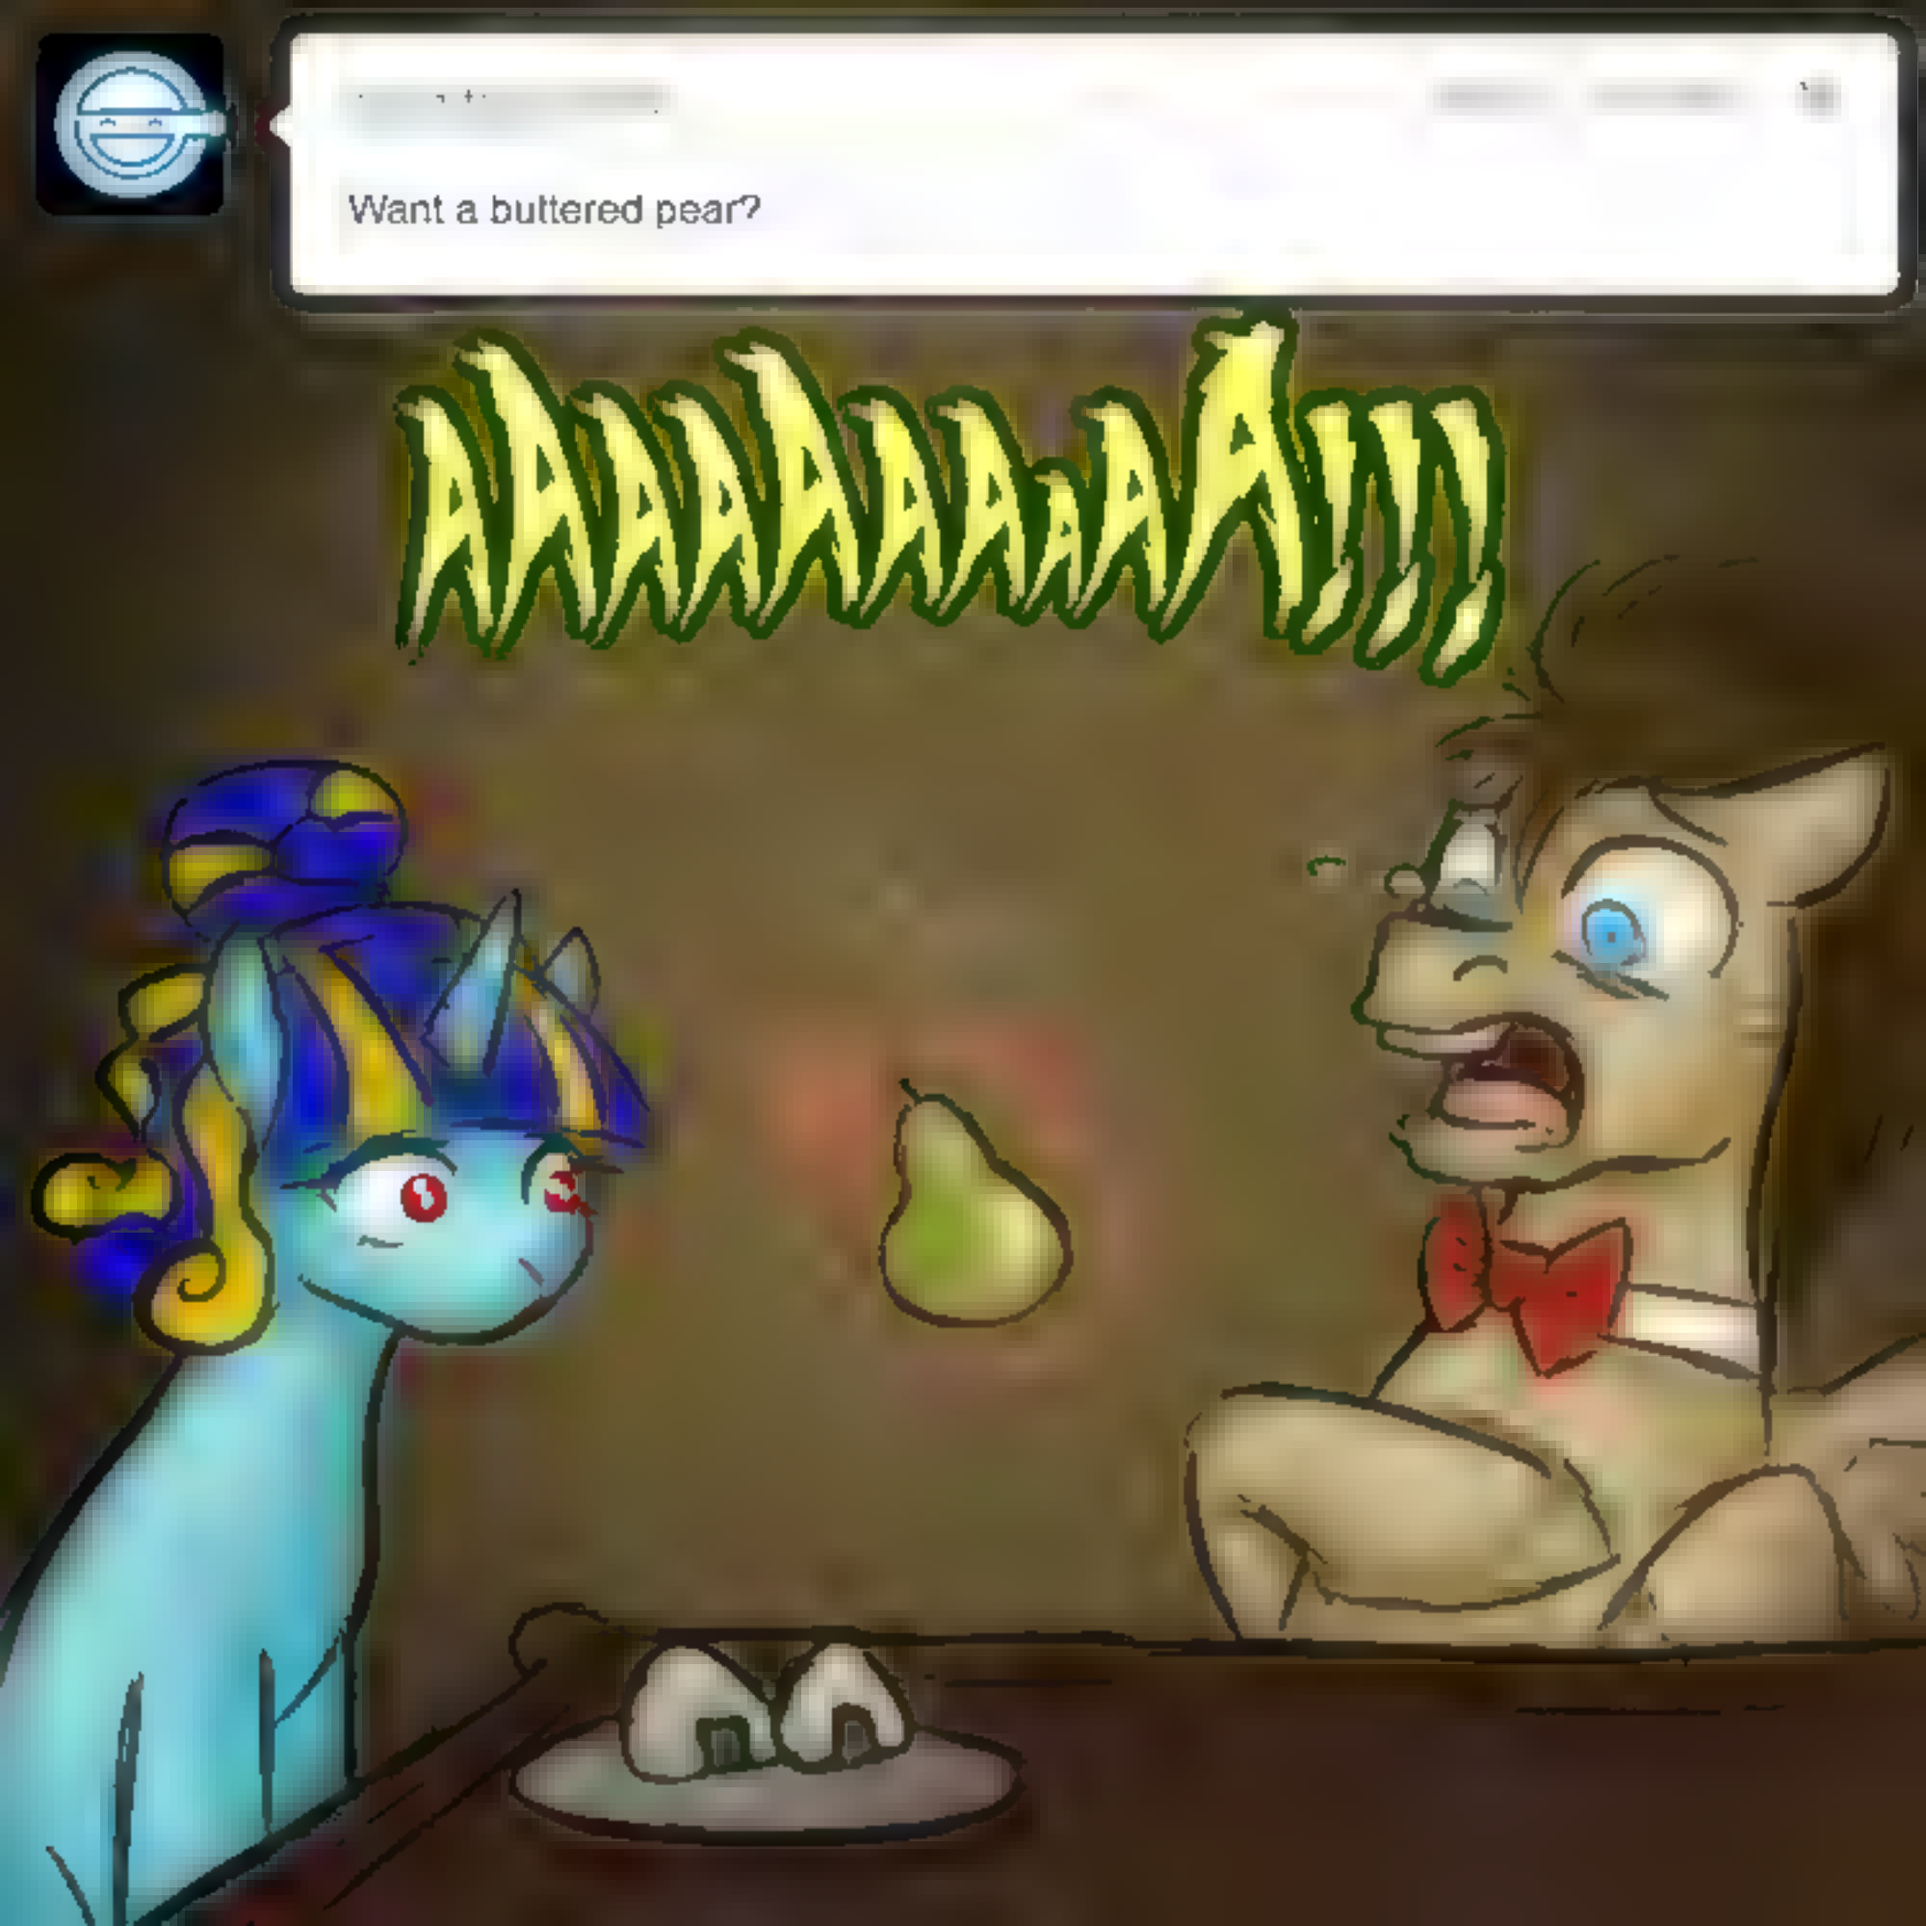
I'll let you get acquainted.

ask-woosle asked:
block
answer
Would you like a rice ball?
Ohh, this is a nice change from the usual.

If given the choice between butter and a pear, what would you choose?

Butter, obviously.

Pears are terrifying...



Want a buttered pear?
AAAAAAAAAA!!!

That was cruel
and uncalled for!!

Doc, you okay...?
I heard screaming...

Y-yeah, I'm fine...
Ananta smashed
the evil pear...

.....Oooookaaaay.....

Any chance of exploring the outside world? Or are you two content with each other in the box for the time being?
As fun as it is, we can't keep sitting here.

So what are you going to do to protect Twilight and the baby?
What am I protecting them from? That's what I need to figure out first.

That murderer could still be out there. Could another investigation could lead us to the culprit?
So, Doctor, will you be investigating those unicorn murders now?
Correct. I need to figure out more about those murders.
Murder investigation, huh? That's right up my alley.

I know it is. With you helping me, I'm sure Twilight will be safe.

How exactly are you gonna protect Twilight and Lightning? You can't be by their sides 24/7. The only way to ensure their safety it to either solve the murders or move them away
It's a good thing that you're willing to protect Twilight and Lightning Blitz but that doesn't take away the fact that Ponyville is currently a very grim place How do you expect Lightning Blitz to grow up in an area like this?
You're all incredibly demanding, you know. Imagine if you told a father he wasn't protecting his family if a murder so happened to occur in his town.

Is he not a good father unless he himself finds the killer? That's ridiculous.

But we're going to try though, right?
Y-yes, of course...

so doctor, you promise twi ght that you wo.i d look into the unicorn killer case
Do yo.i have any idea were to start?

PONYVILLE, OF COURSE.
I JUST NEED TO
INVESTIGATE MORE
CAREFULLY THIS TIME.

REALLY, DOC, I CAN PROBABLY FIND EVERYTHING YOU NEED WITHOUT BEING DETECTE---

NO, YOU STAY HERE.
WHAT- BUT I-

I'VE SET THE TARDIS TO SCAN RECENT EQUESTRIAN NEWS, YOU NEED TO FIND ANYTHING THAT MAY BE CONNECTED.
BUT DON'T YOU THINK IT WOULD BE A BETTER IDEA IF WE SWITCHED-

I'M COUNTING ON YOU, JACK!

WHAT THE HELL IS WRONG WITH YOU, DOCTOR...?

Why does he keep going off on his own?
It's not like him... Not like how I remember...

Jack you should pay close attent on to the Doctors att tude personality, and well coat color It isn't a trick of the mind They re are bad th ngs going on in Equestria and they're effecting every be ng and the Doctor too He s hurt others because of it Jack and not just emotiona ly Maybe you can help him and Equestria
It's strange, when you mention it, it seems so strange to me, yet it somehow makes sense.

When I look at him,
it almost feels like I'm looking at psychic paper...

So Jack I've always wondered, what would happen of you were say, beheaded and the two parts of your body were put miles apart? When you healed would the Doctor have two Jacks on his hooves?

No, one part of my body would decompose,
while the other regrows itself.

I was once blown up from the inside.
I woke up when my body was still forming,
nothing but muscle and bone...
It was agonizing...

Ah well, that's not important right now
When the Doc gets back, I've got a lot to show him.

So Jack, have you noticed that there are a lot more Mares than Stallions?
How should I know...?
I've only been outside the TARDIS twice.

It... he keeping me locked in here on purpose...?

Not very much...
There were two known murders in ponyville,
but I couldn't really get any good information.

There was one area where there was clearly a struggle, and I found this tangled up in some weeds. Could be connected, but I don't know...

No, I wasn't able to get anything else. What about you?

I think you'll like the results.

only four of them had their identities released though. The last one has been kept pretty well hidden.

Now here's the best part:
The murderer isn't in Ponyville anymore.
!!!

So Ponyville isn't in danger any more?!
For now. The most recent murders both happened in Los Pegasus.

From what I can tell, the murderer doesn't actually give a damn about location. The first murder was in the old town district of Canterlot.

Something that stood out to me in the reports were that all of these ponies were somehow related to mu--
Then that means we don't have anything to worry about!
SKOOSH!

E-Excuse me?!
I promised I would protect Ponyville. If the murderer isn't there, then my job is done.

Hold on, but the murderer is still out there and I was just getting to the—

Not our problem any more.
WHAT THE HELL?!

Leave it alone, Jacky-boy.

DAMMIT...!

so, Jack haven´t you still noticed that the Dotor is not the same?

Jack The Doctor have been like this for a long time You better get used to it

Jack This is what we have been talking about He's not himself Since when does the Doctor go "not my division"?
Jack this is what we warned you about Doc is a different pony now

Do u think the Doc is hideing Something from J Jack?
Somthing's off, the Doctor wou dn't brush off such a pressing matter aside ike that would he?

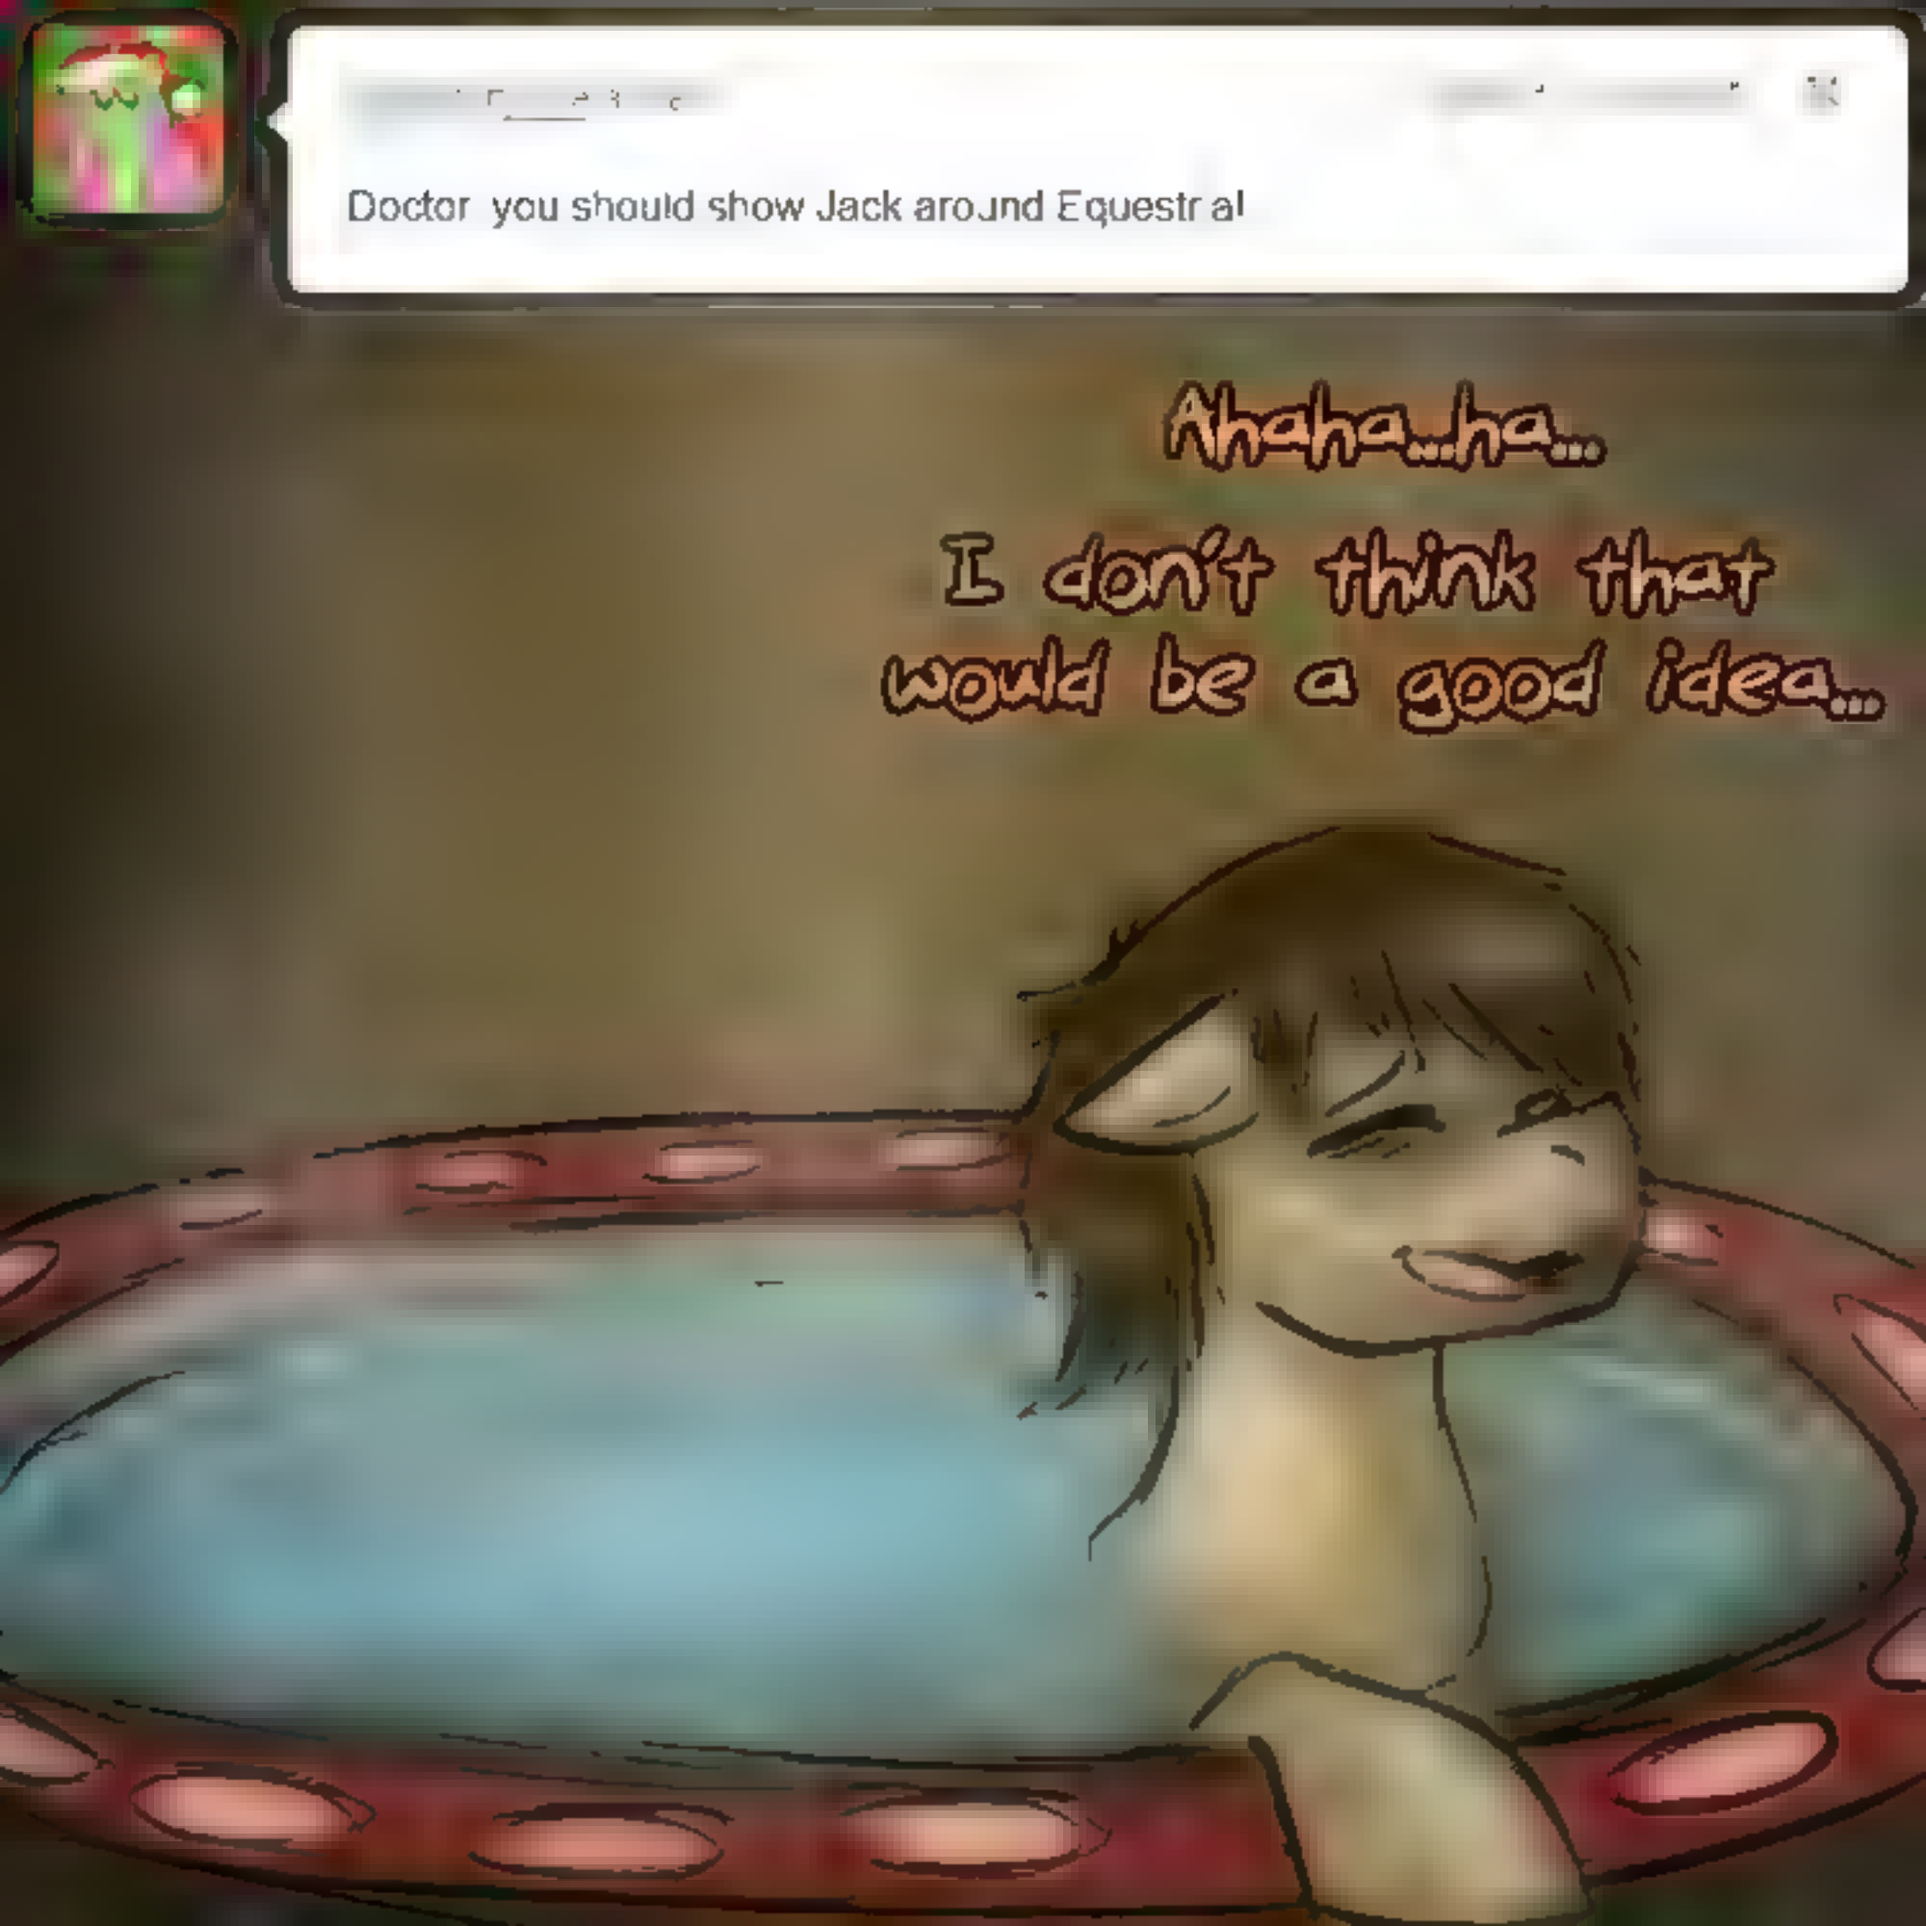
Jack Stay calm
Relax Jack, it's the doc were ta king about Even if he may not want to, he will end up doing what's right, right?

Do you ever "relax?"
So tired...

Now that Jack's on your side, do you plan on taking down the Master? Two's better than one, after all
sooo you gonna tell jack that old drummerboy is also around? or that your not the same doctor he knows?
Jack seems stressed enough as is. He went through a year of torture because of the Master...

He thinks the Master is dead,
and it should stay that way.

So, You planning on go ng any new, perhaps potentia ly dangerous adventures to seemingly beautiful yet deadly planets for the sake of ADVENTURE!?
So doc p an on going on another adventure with Jack?
O-of course not, I--
I don't think he's had enough experience as a pony yet..!

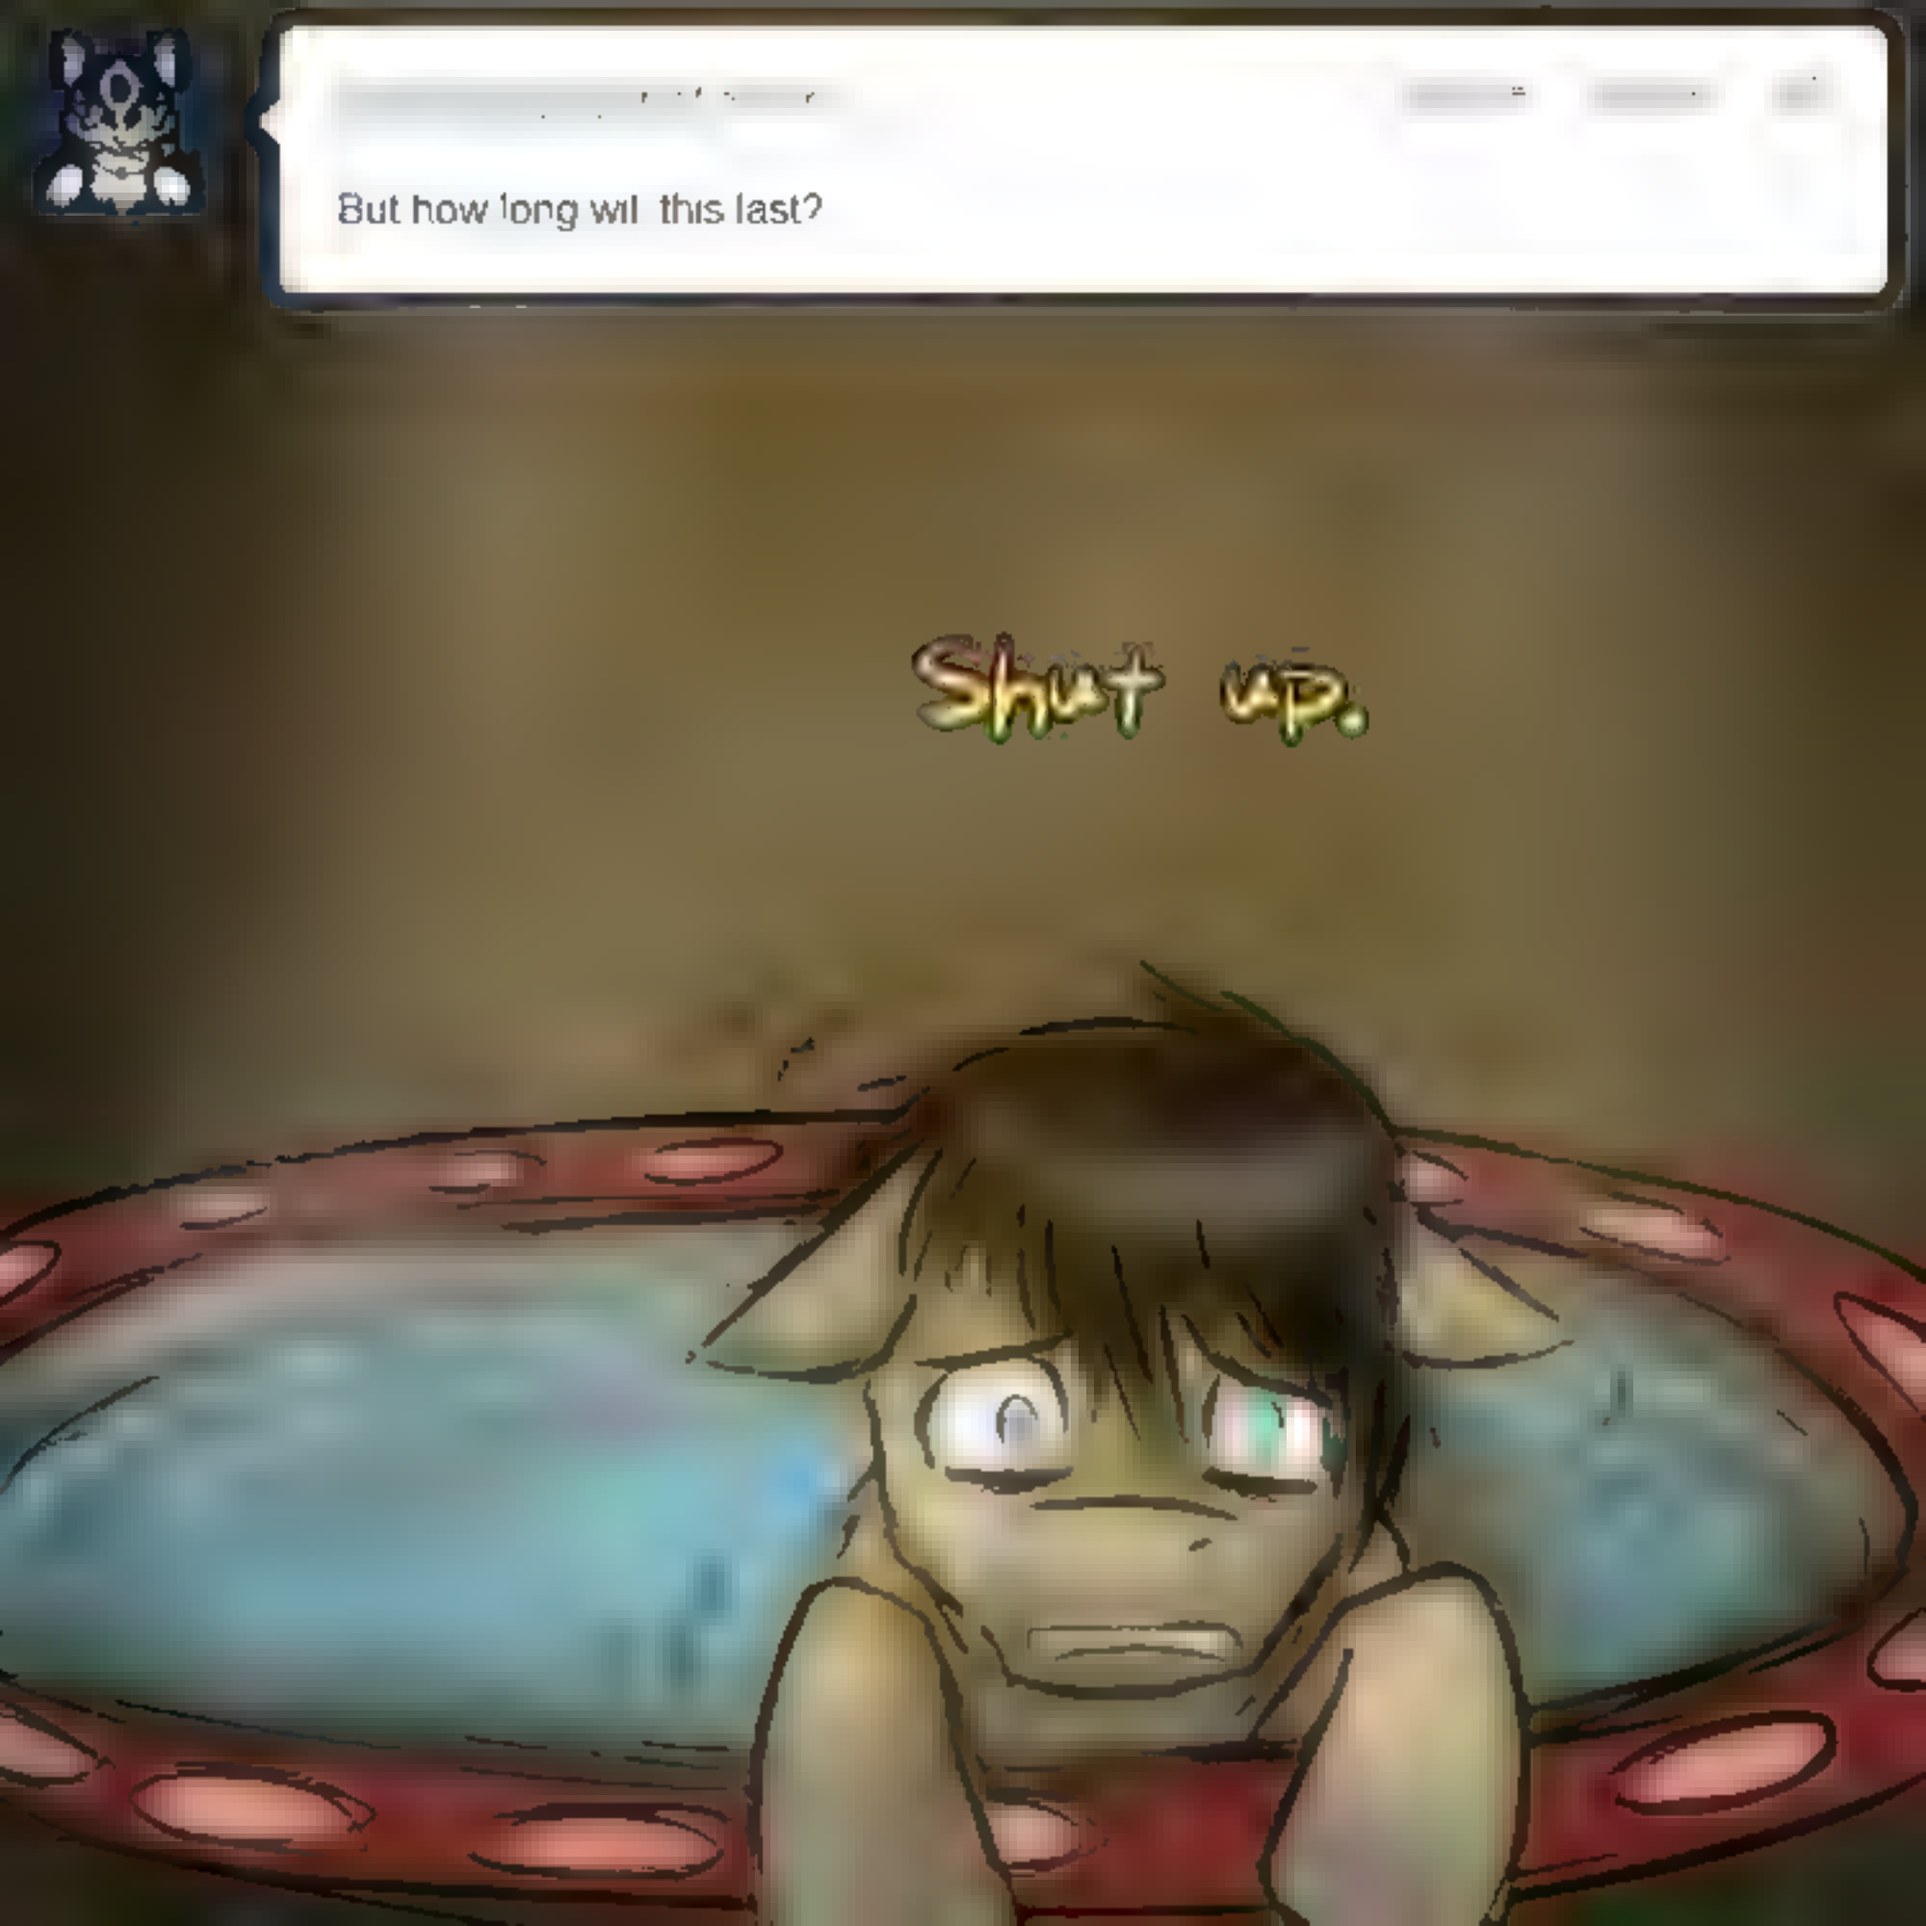


Doctor you should show Jack around Equestria!
Ahaha...ha...
I don't think that would be a good idea...

I noticed that you seem to be having Jack remain behind within the TARDIS a fair amount, might I ask why? He s after all mmortal And since his presence seems to be do ng you a lot of good (headaches notwithstanding) I doubt the TARDIS would run off without him
I don't care.
I don't want anything to happen to him.

Doctor why did you make Jack stay in the Tardis all alone? Are you afraid that he'll leave? Just like Derpy?
What if Jack leaves you? You still need company to keep you in check what would you do then?
He wont leave me...

What would happen if you and jack would get into a fight? would u beat him up and throw him out like u did with Derpy? Have u ever mention Derpy at all?



But how long wil this last?
Shut up.

Jack why don't you to take a good conversation with the Doctor He's been ignoring us, you know Maybe if YOU try to reason with him instead he' l consider changing his attitudes Make h m remember
Doc... We...
We need to talk...

J-Jack, I didn't hear you come in!
C-come join me, the water's great...!

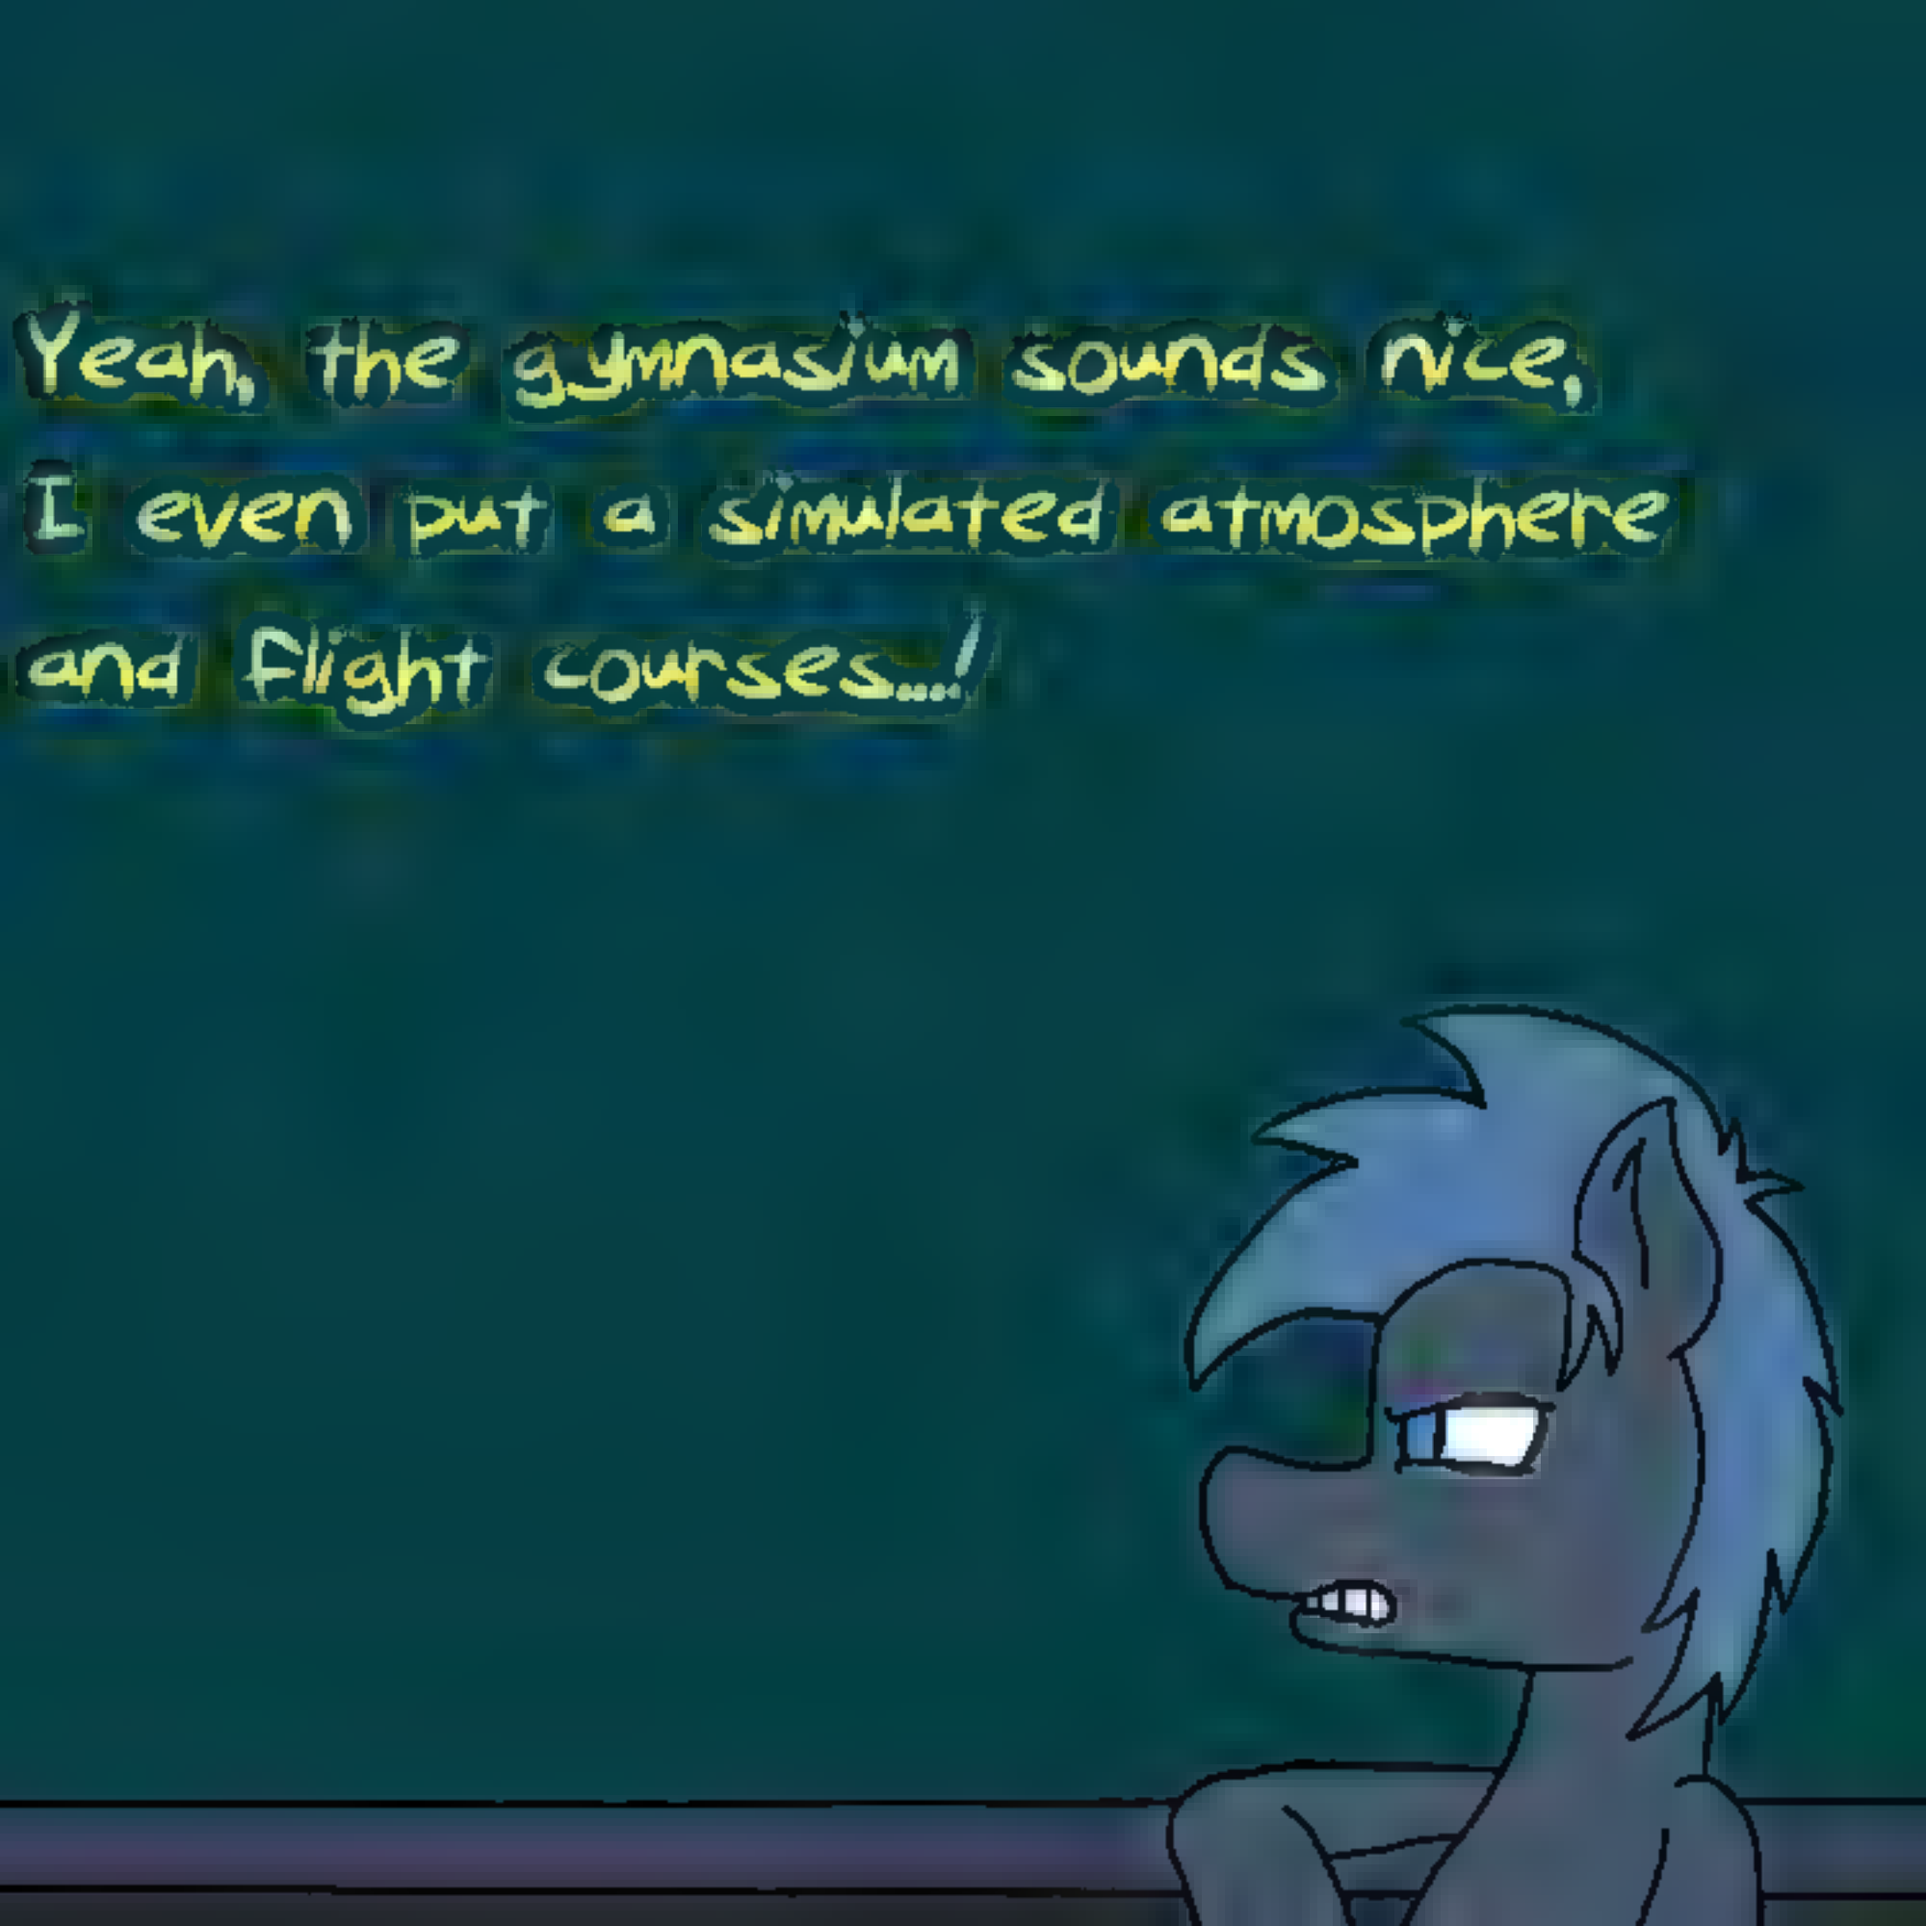
See? It's a nice tub, isn't it?
I'm glad I reinstalled the p—

I... I have no idea
what you're talking about...

Jack you have to try to get through to the doctor He's clearly changed mentaly as well as physically

So you guys are just hanging out, huh? Doctor are you going to show Jack some other parts of the Tardis? I seem to remember you installed an amusement park simulator a while back
O-oh, yes, that's a great idea! Lots of new rooms to explore, I'm sure you'll like them!

Come on, I have a theme park simulator,
and a theater, and a gymnasium...



Yeah, the gymnasium sounds nice,
I even put a simulated atmosphere
and flight courses...!

Hey Doc, don't you need to teach Jack to fly? He is a Pegasus

Seems like you can fly, Jack How about showing the doctor what you got?

Okay the walking I get but how the hell is jack able to fly right off the bat???
How did you learn to do that so fast!!

Jack how do you how to fly already?
Oh, I've had plenty of time to explore myself on the TARDIS

I've got the strangest feel ng that Jack's upset with you
Since you keep leaving me here to do nothing else

Don't you think that Jack is getting rather stir-crazy? After al he has been cooped up n the TARDIS for a wh le
J-Jack, I didn't mean—
I just assumed...

You have to see it now Jack, The doc s different He isn't the same But maybe you being here can change that
You've been avoiding my questions and I'm getting real tired of it

Don't you think it's time for a litt e tough love, Jack?
Something is really wrong with you. Tell me what's going on. Now

Well...?
Doctor stop messing around Jack is only trying to help you Please listen to him!

I'm fine.
No you're not.

Y-yes I am,
nothing's wrong...

Doc as painful as it might be, you can't keep avoiding the topic forever You're going to have to let Jack ask you about what's been going on with you lately If you don't he'll find out one way or another He S an investigator after all It might be easier just to come clean before you loose yet another companion
Stop lying to me, Doctor!

Jack is not happy being confined like this and you know it You have to tell him Doctor, it's only going to get worse the more you put it off He's your friend Friends don't lock each other up and restrict them And I don't want to be there when he leaves you all alone again, only for you to turn to us to hear "we told you so"

Doc, we all know what's going down You need to tell Jack, he is your companion after all

I was already worried when I noticed you here all alone...

I have no idea how you got here,
but I can only assume it wasn't pretty...

I don't really remember how it happened...

I lost something back then and I...

Just when I thought I found something new,
I lost that too...

I had nothing left, Jack...

So when you showed up I...

Doctor, why are you so afraid of losing Jack? If he wanders off, he'll come back again
I was so happy...

Dammit Doctor, I know what it's like...
You shouldn't have to hide it from me...

I know, I know. it's stupid but I just don't want anything to happen to the things I care about.
I just want to proted you.

Well, you didn't protect Ditzy from yourself

D-Ditzy...

Jack, I know that this may be a lot to ask, but You need to ask about a Ms Ditzy Doo, you may just be surprised with how the Doc reacts You will have plenty of things to hypothesize after seeing him like that. Just ease h m into it, this is a real touchy subject for the poor guy It never ends well, really Also Jack, remember Presidents Roosevelts' saying, "Speak softly and carry a big stick " You're in my prayers Jack

Who ....?

Ditzy was...my first and only companion here in this dimension...

We went through a lot together, but...Despite that... She left.

Why...?

I'd rather not talk about it.

Do you Ever /miss/ having Ditzy with you ?

Whatever happens to her, it's not my problem anymore.

It's better this way.

B but doctor !!! If the murderer kills ONLY un.corns !!!! Dinky and Sparkler are not safe !!! You must protect them too !!!!

D-Dinky and Sparkler...!

All the victims were unicorns. And the murderer is on the move, going town to town. Who knows where the murders will happen next...!

Hey Doctor aren't you scared that Dinky and Sparkler will be killed by this mysterious killer? I mean they are unicorns and I doubt whatever is doing this won't make exceptions. So are you going to run and let them be killed or are you going to stand up and protect Dinky and your "Little Amy"?

I have to warn them!

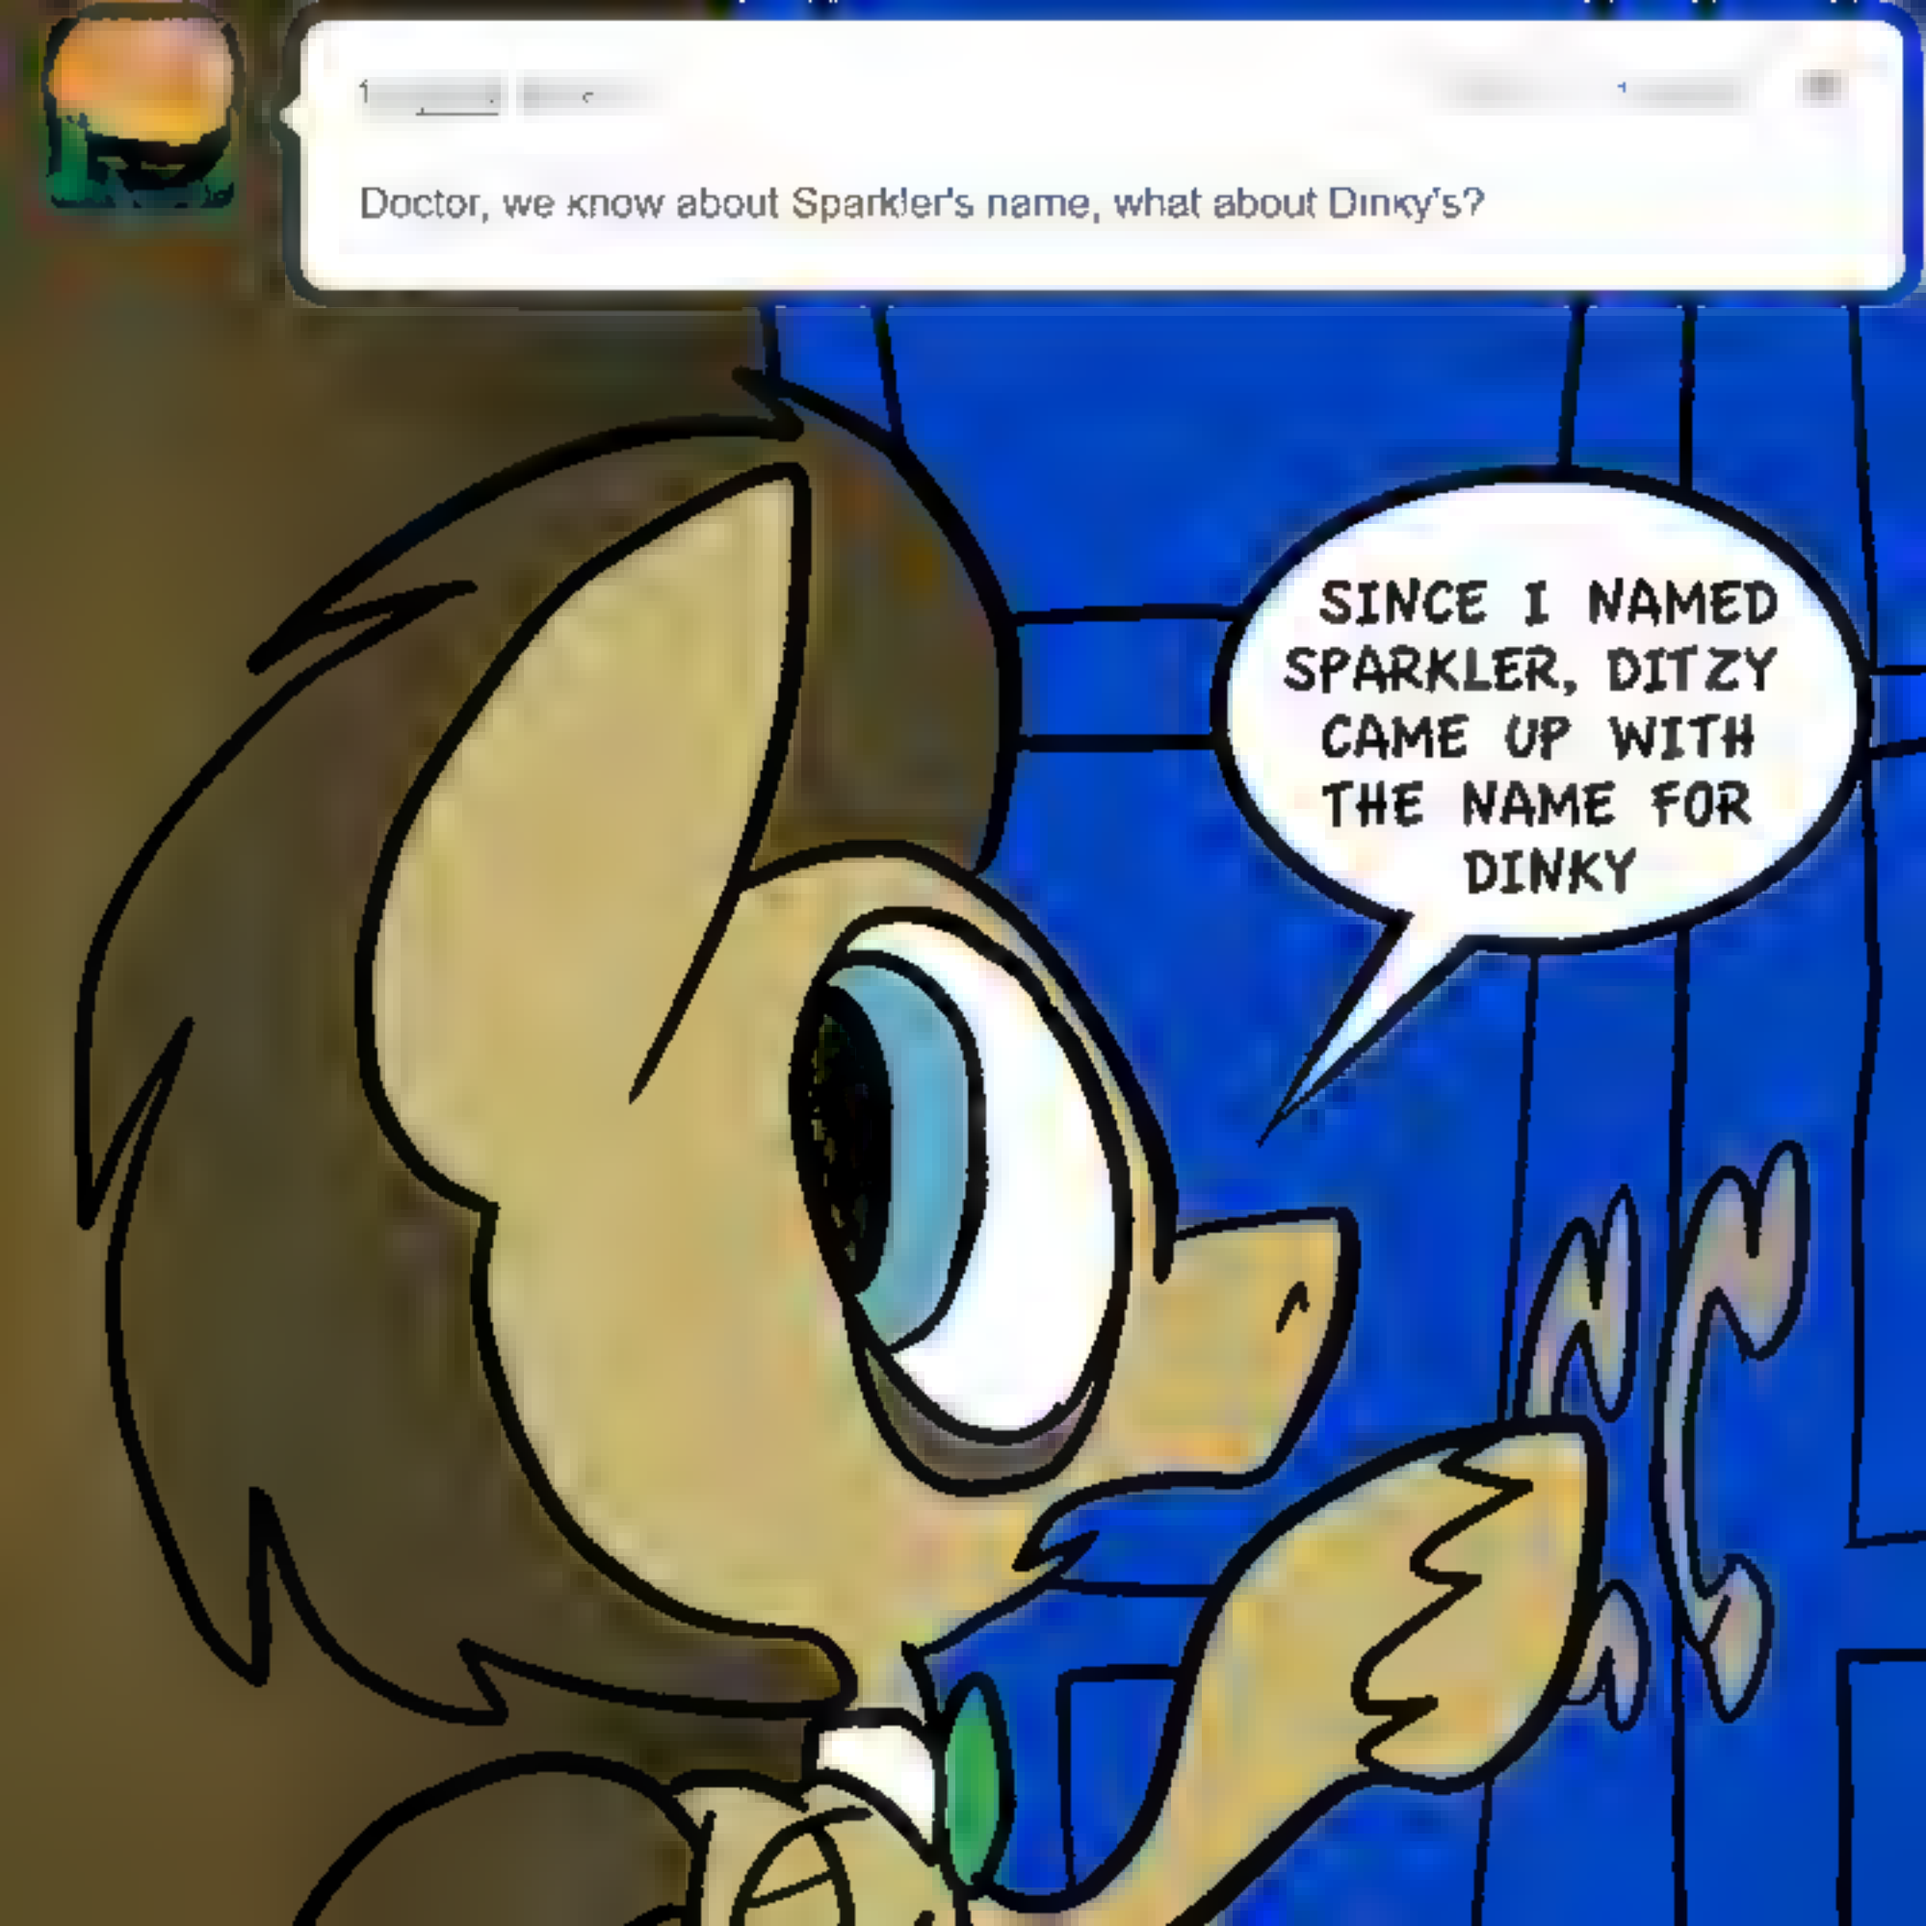
There you go again,
leaving me behind...

Have you considered weaning a tie again?
IM SURE IT WOULDN'T HURT IF I JUST POPPED IN TO CHECK ON THE GIRLS

AND IM SURE SPARKLER MISSES ME

Silver Spoon and Diamond Tiara have been bullying Dinky
WHAT! BULLYING?!

SHE DOESN'T SEEM TO BE BOTHERED BY IT, BUT I GUESS I'LL ASK HER ABOUT IT



Doctor, we know about Sparkler's name, what about Dinky's?
SINCE I NAMED SPARKLER, DITZY CAME UP WITH THE NAME FOR DINKY

Jack why don't you chase after him?
SO WHERE ARE WE OFF TO N-
YOU'RE NOT COMING!

Doc, god damnit stop leaving Jack behind. Why not get him to help you?
Wait doc! Take Jack with you. I mean, You should take him along so he isn't always alone in the TARDIS
THIS TIME IT'S FOR A GOOD REASON. . . I NEED TO DO THIS ON MY OWN, IT'S PERSONAL. . . ALRIGHT. . . ?
FINE

CARROT TOP SAID THEY'D BE HERE SO. . .

Such a history Your on th.n ice Doctor Tread with caution

You're worried Dinky and Sparkler might shun you aren't you? Don't be, just play it cool You are the Doctor after all

Sis kept saying something was wrong with you but I knew she was wrong.

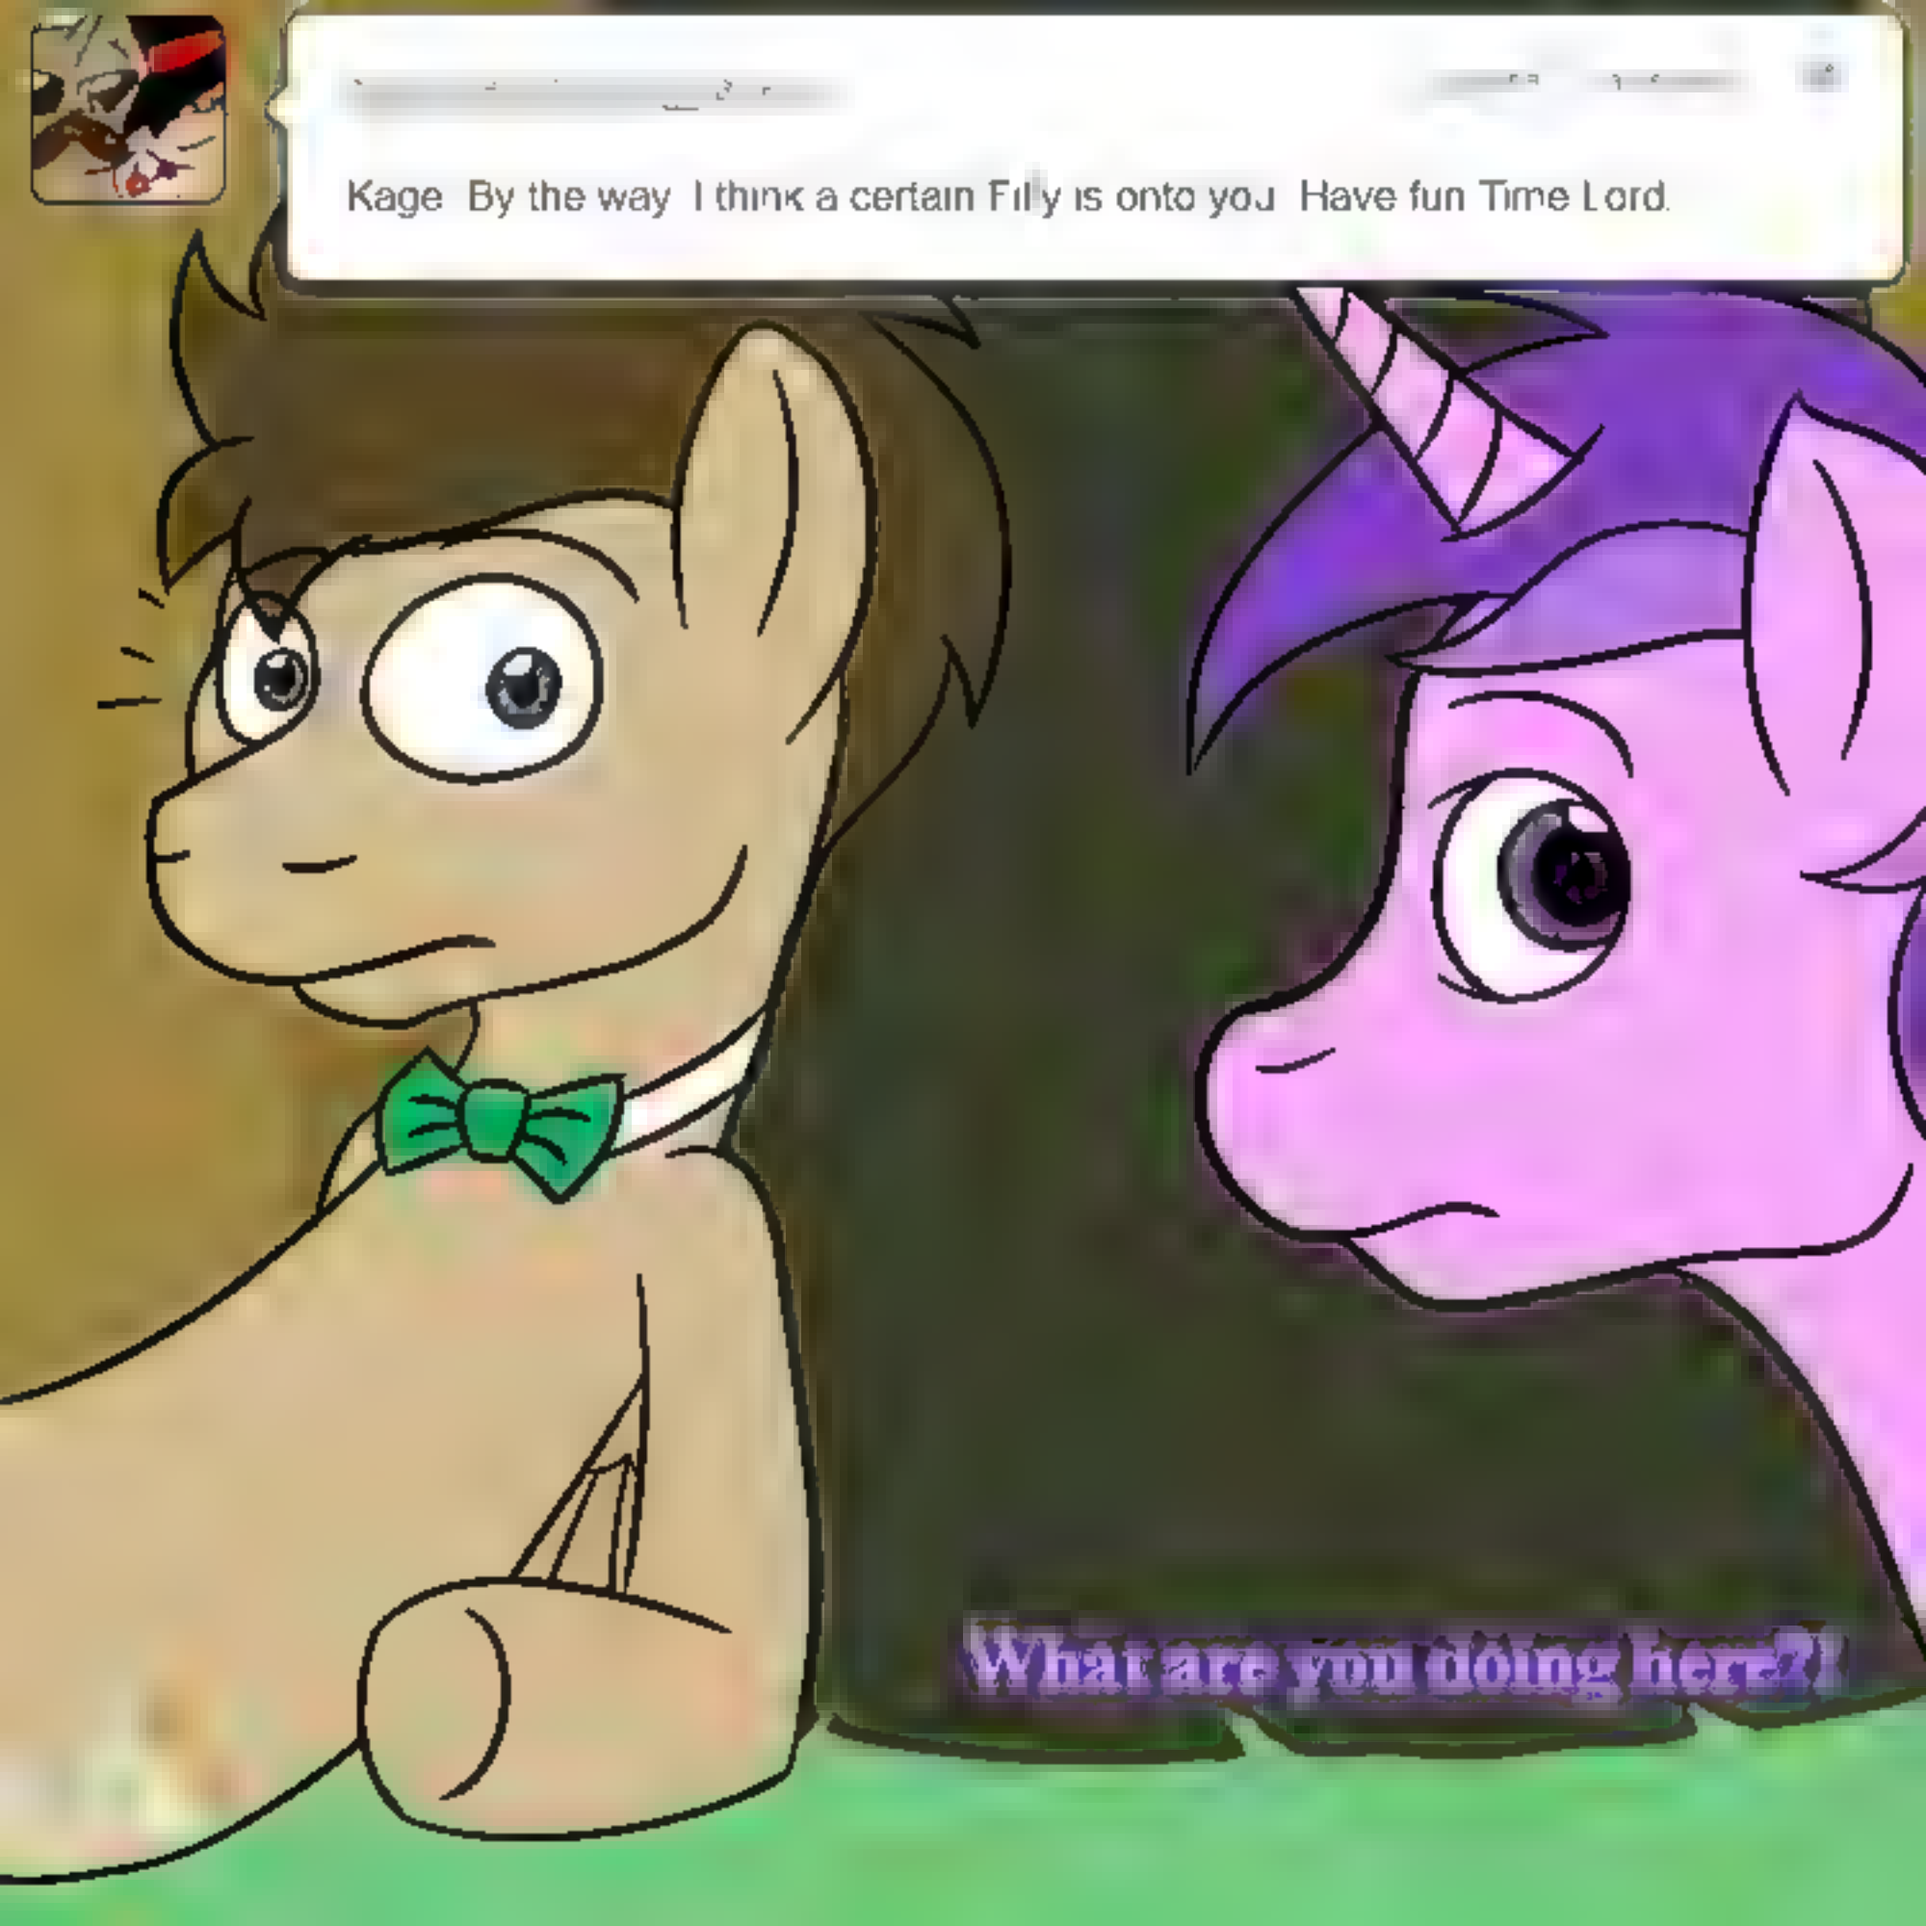
Uh-huh, but I think she's just been upset ever since mamma had her accident

Don't be nervous, Doctor. I don't think anything could go wrong, could it? You just have to be confident in yourself
She's okay now, don't worry!

Dinky and Sparkler may be smart kids, Doctor, but they're still only kids. Don't frighten them unnecessarily, okay? Enjoy the time you've got with them

doctor, if you really want to visit dinky and spark er try to appear confident, and think of a reason why you left them, I m pretty sure they are going to ask you about it
So when are you and mama gonna start going on adventures, anyways?
It's been really boring.

Those days are ov



Kage By the way I think a certain Filly is onto you Have fun Time Lord.
What are you doing here?!

I wonder if dinky still hates you?
D-Dinky, h--hello-

Be careful Doctor. I don't think that Dinky is really ready to welcome you back into her life.

pkmndaisuki asked
First things first, Doctor Breathe Don't get too frantic or you won't be able to concentrate on helping Dinky and Sparkler A cool head is better than no head
I... I did? I didn't mean it- I just...
I just haven't been feeling well lately...

Vicky
ts Dinky even going to let you get near her?

You really underestimate Dinky. The child is very perceptive
Sis--!
What, and you expect me to forgive and forget?!

I HAVN'T BEEN FEELING RIGHT AT ALL,
I CAN BARELY REMEMBER ANYTHING...!

BUT.. BUT WHEN I THINK ABOUT YOU AND YOUR SISTER I GET THIS HORRIBLE FEELING... L-LIKE I DON'T DESERVE TO BE ANYWHERE NEAR EITHER OF YOU...

It wou dn't matter if you went to see derpy anyways because everyone knows what you d d And her family sure as he l wouldn't let you see her

YOU DON'T.

D-DINKY...

BUT... YOU DID COME BACK...

IF YOU CAN APOLOGIZE AND JUST EXPLAIN WHY THIS ALL HAPPENED... THEN MAYBE I CAN FORGIVE YOU...

I-- I'M TRYING... IT'S.. IT'S RIGHT THERE, ON THE EDGE.. SOMETHING IS...

JUST PLEASE, GIVE ME A CHANCE--!

Behind you

So Doctor are you going to pay Derpy a visit? She's been look ng for you you know! And it seems kind of urgent

how does Jack feel being alone in the tardis
Yeah, rub it in why don'tyou?!

I'm used to being left alone. I bring it on myself

Wow. You just gave that huge spiel about being locked in the TARDIS, and he leaves you alone again. What are you gonna do now?
Stand around and wait until he comes back...
Goddamnit.
This is like Torchwood all over again...

Don't take his actions to heart jack the doctor simply has way to many thoughts in his head right now to think just know his intentions are good

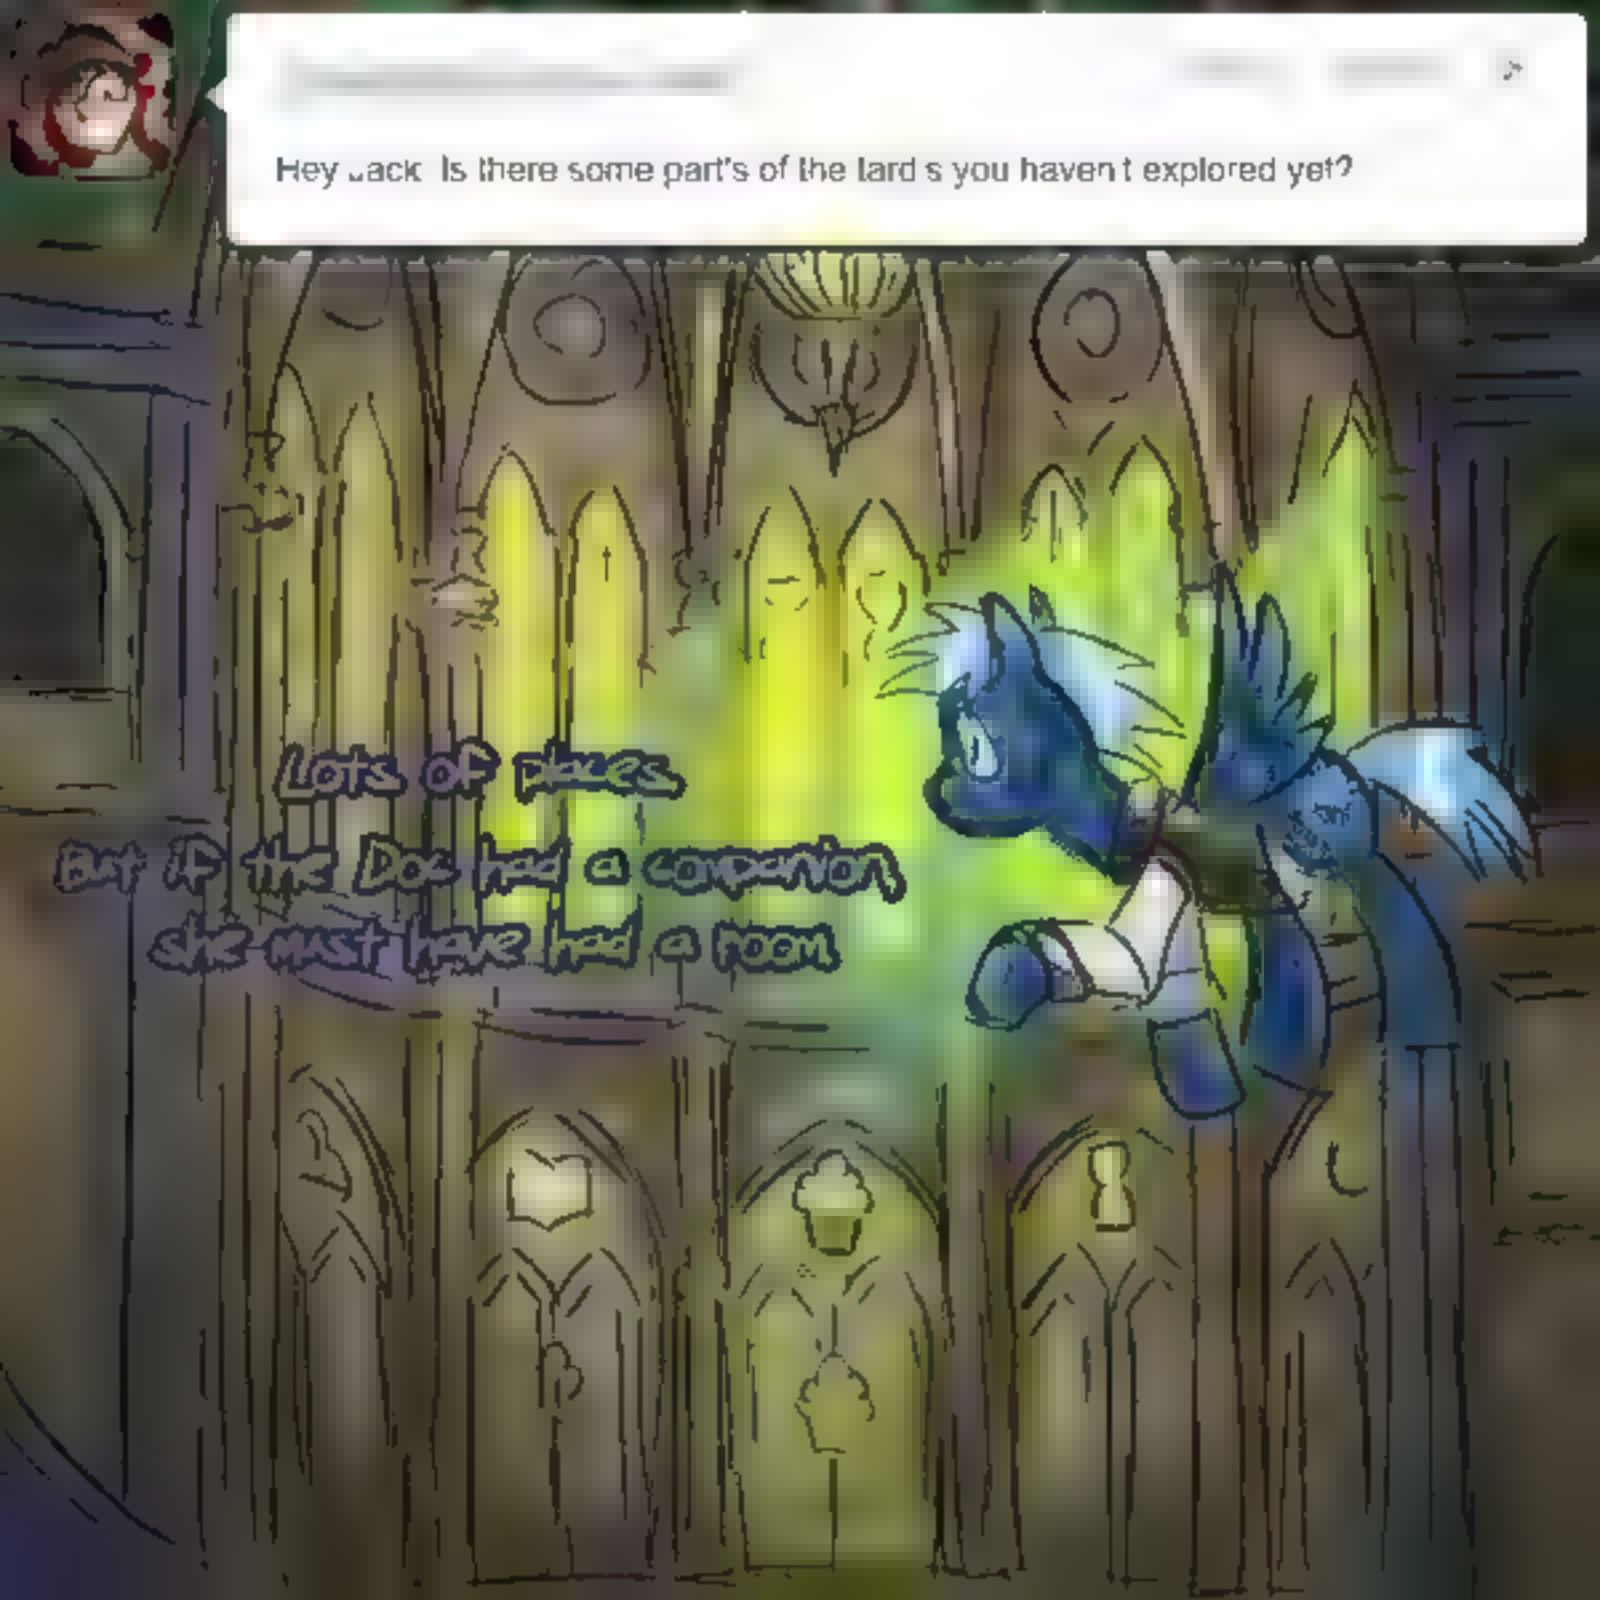
His intentions might be good but his mind is betraying him.

You really should keep an eye on the Doctor, he isn't himself
I'm trying...!
but he just keeps slipping away from me...
I'm trying.

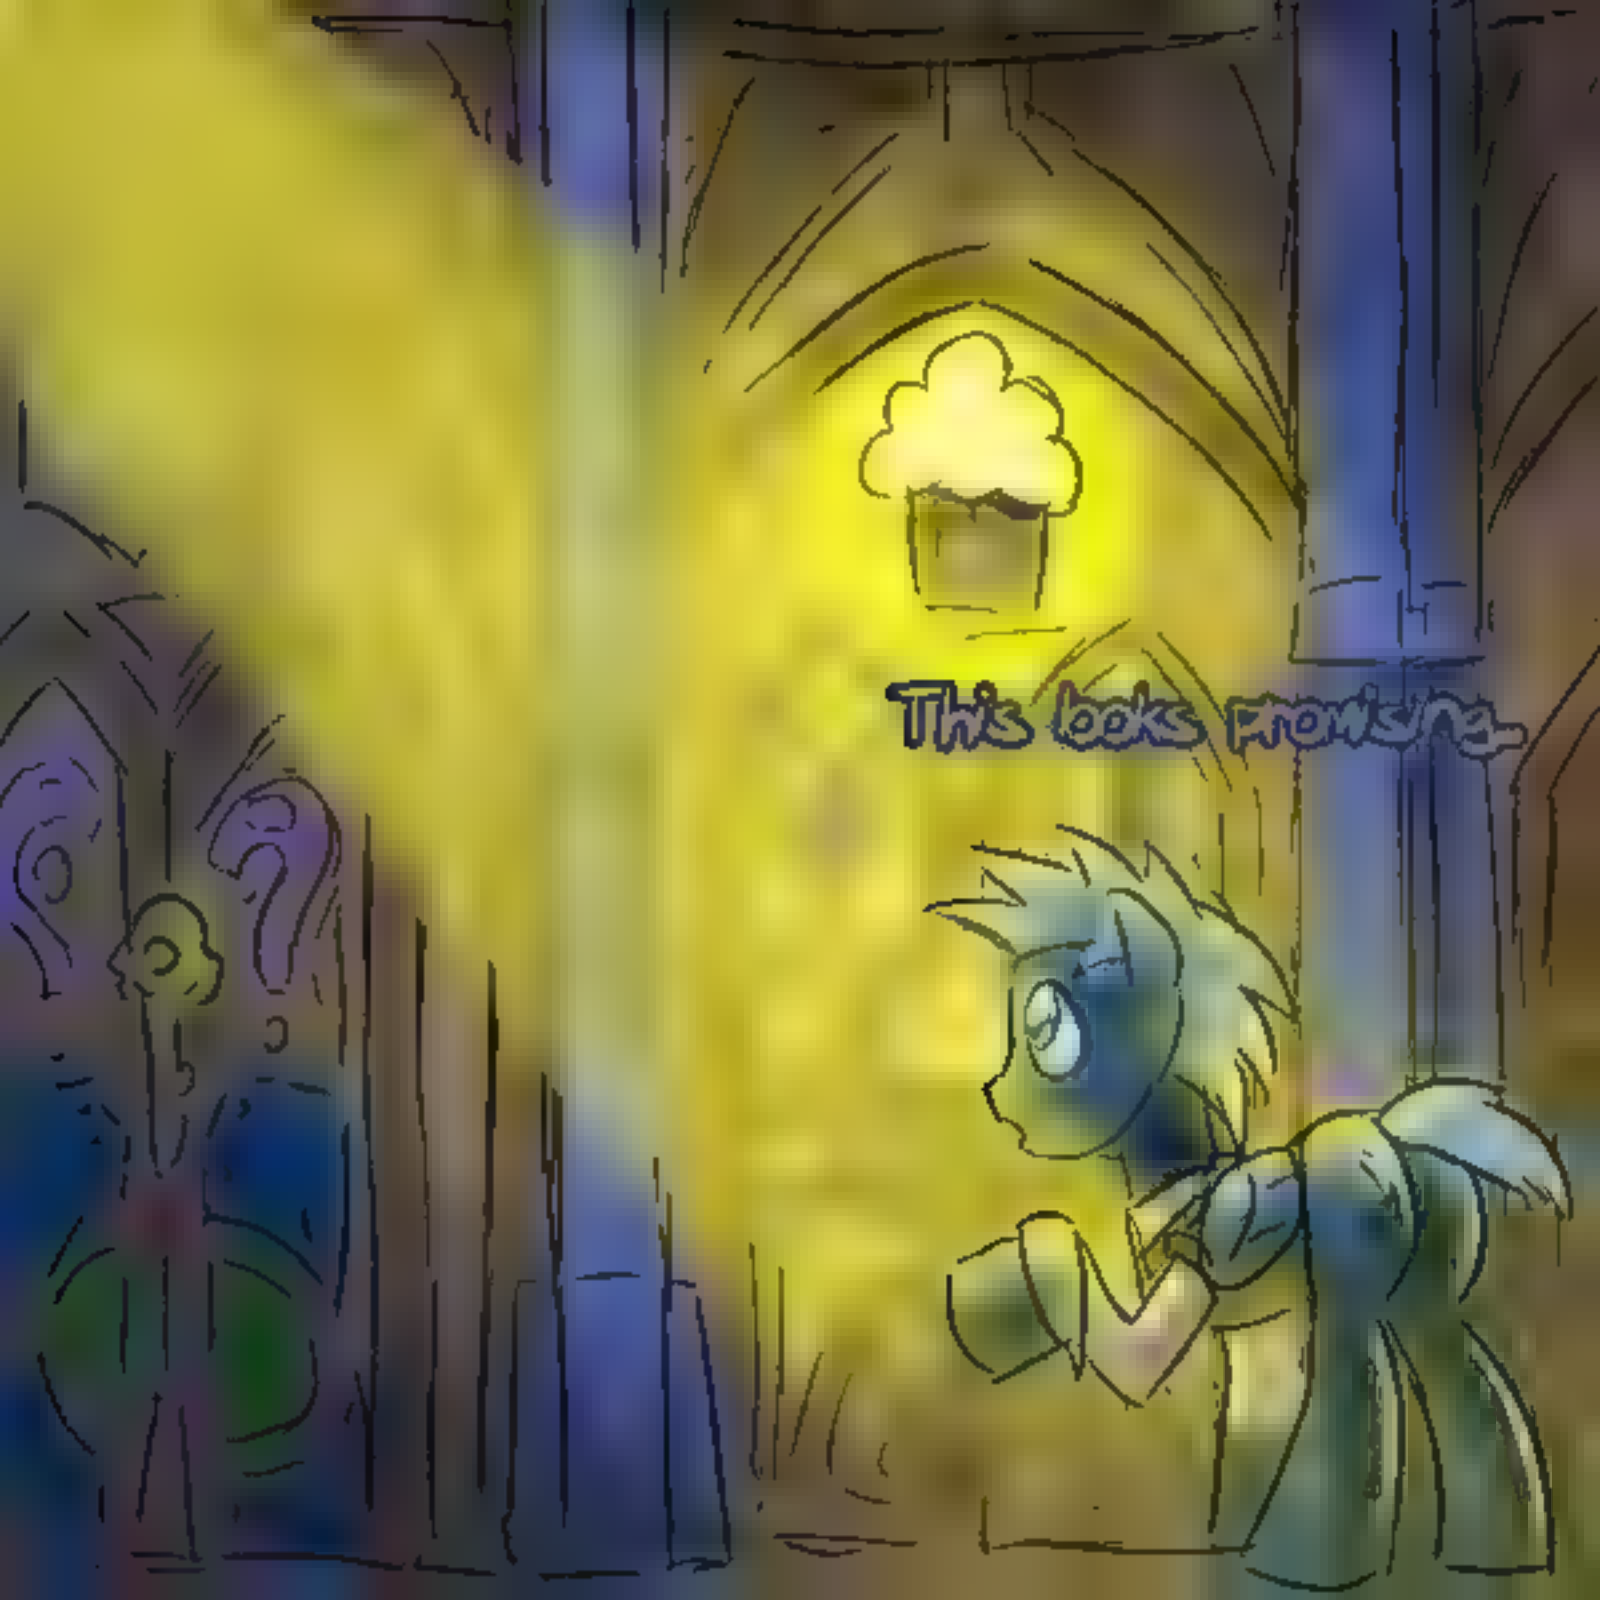
It's always
Been Hard way
But not this
bad. Not
like this -

Don't just sit there Jack! Do something! Investigate on Ditzy or something, ya lazy bum!

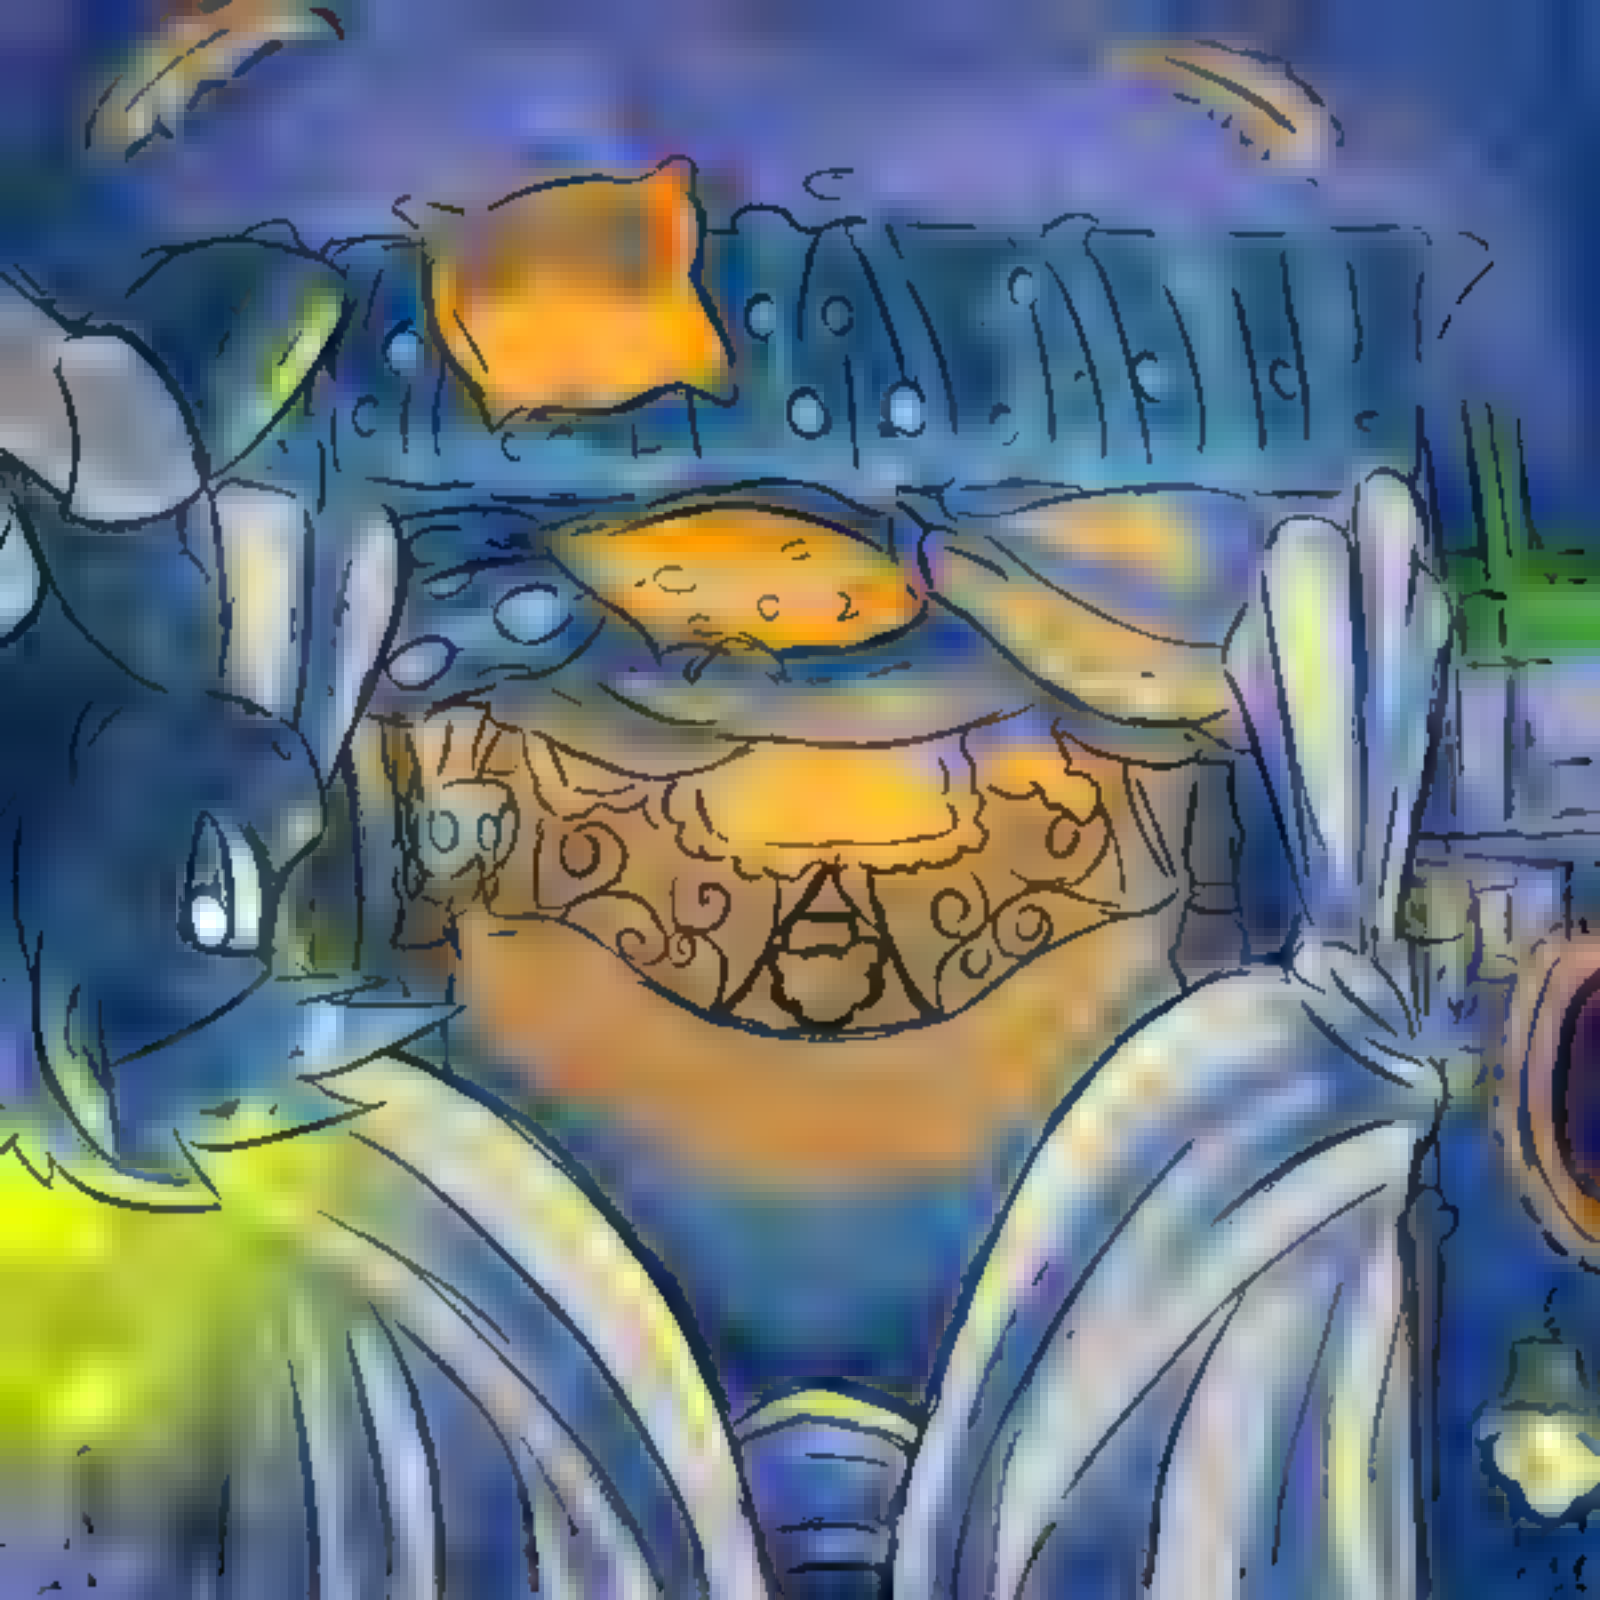
Yo Jack Maybe he'l have things concerning Ditzy in the TARDIS? He has seemed to be fond of her even if he disregards it
If she was his companion
You're not hiding from
me any more, Doc.



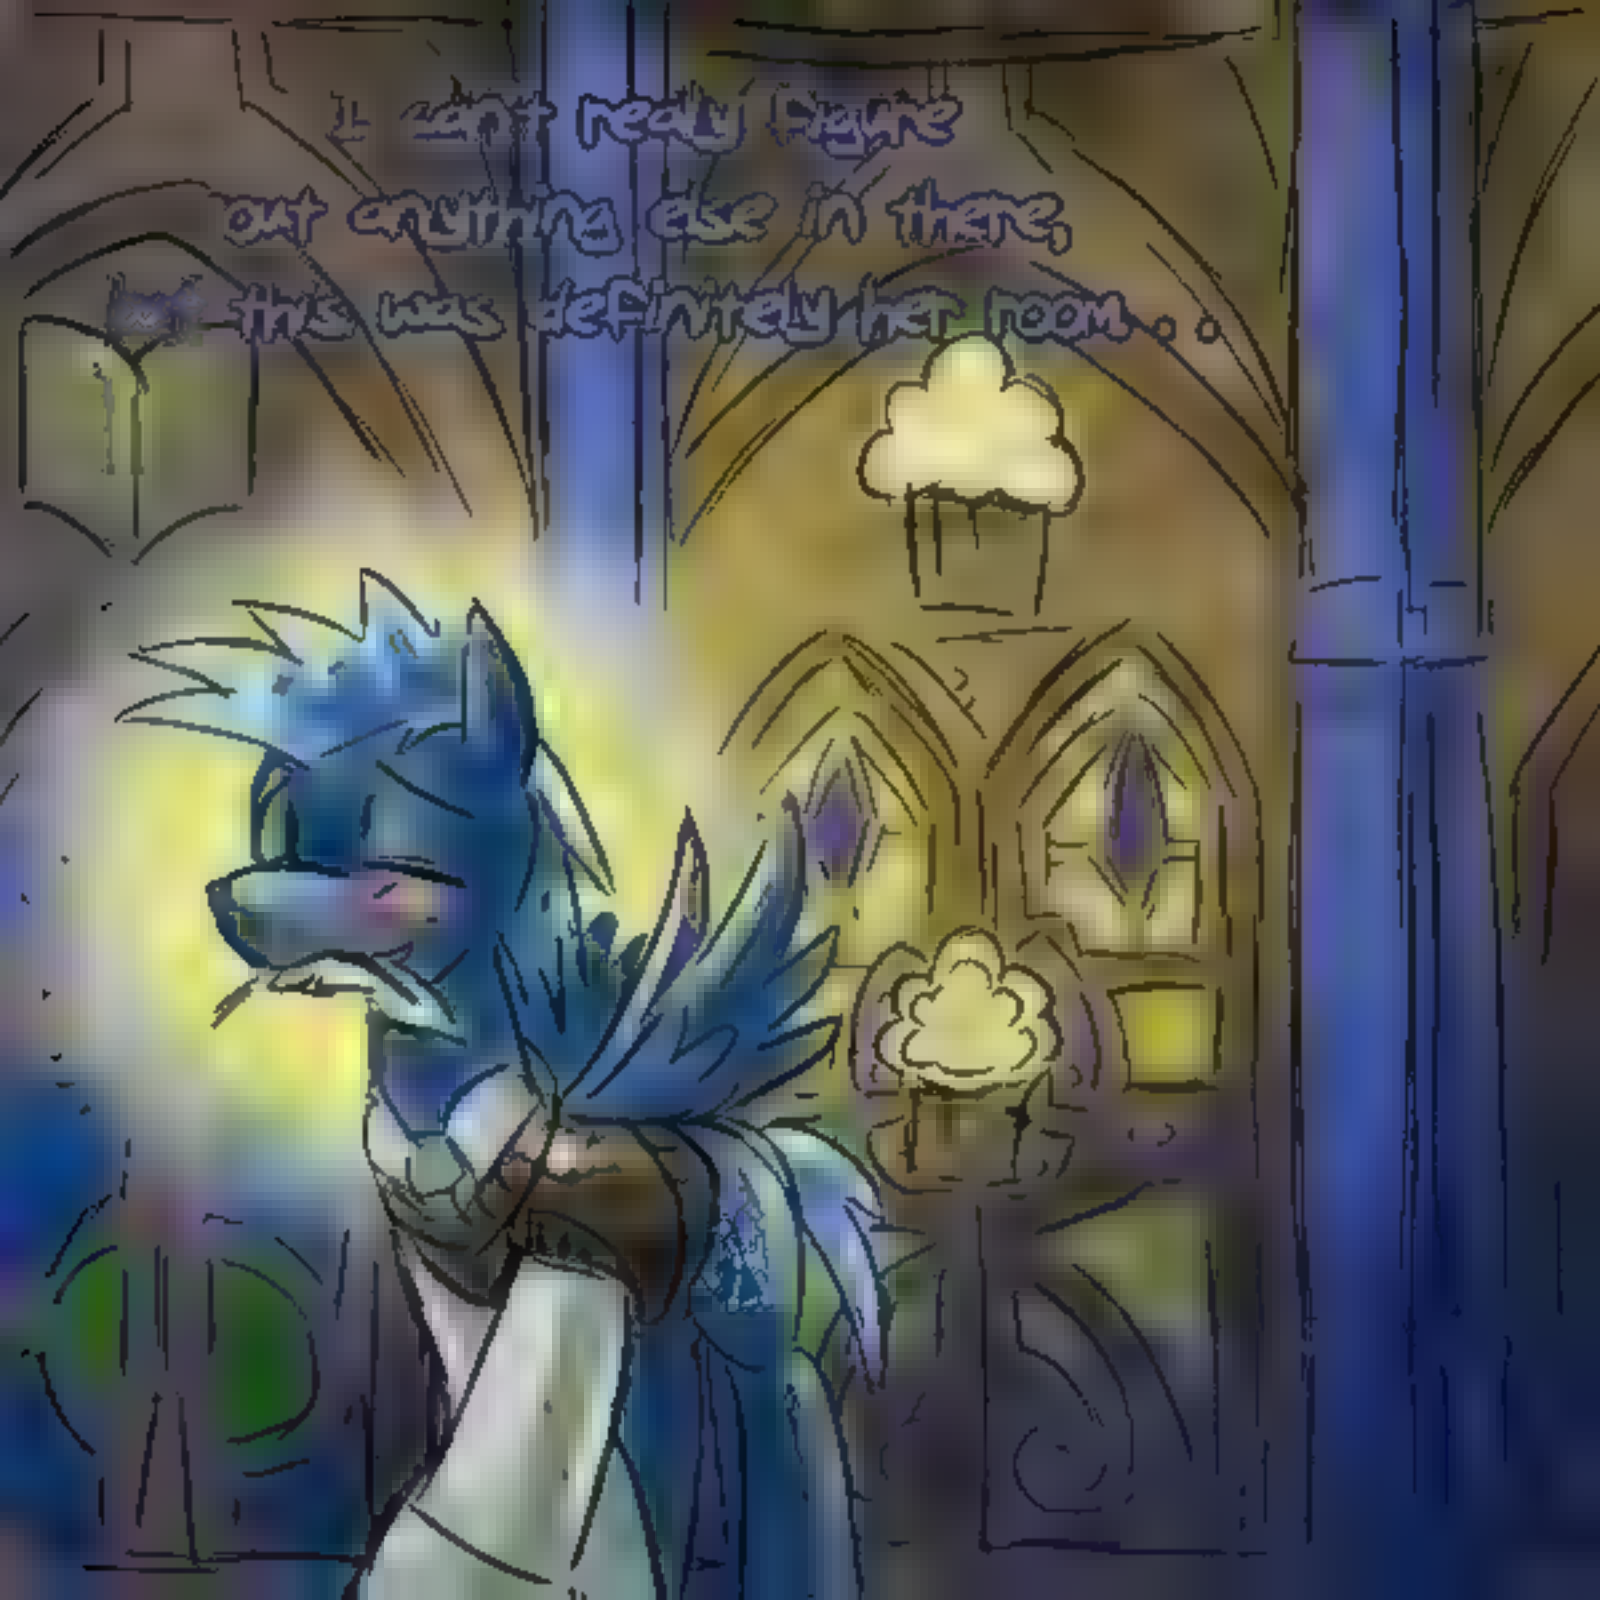
Hey Jack. Is there some part's of the lard s you haven t explored yet?
Lots of places.
But if the Doc had a companion
she must have had a room



This looks promising

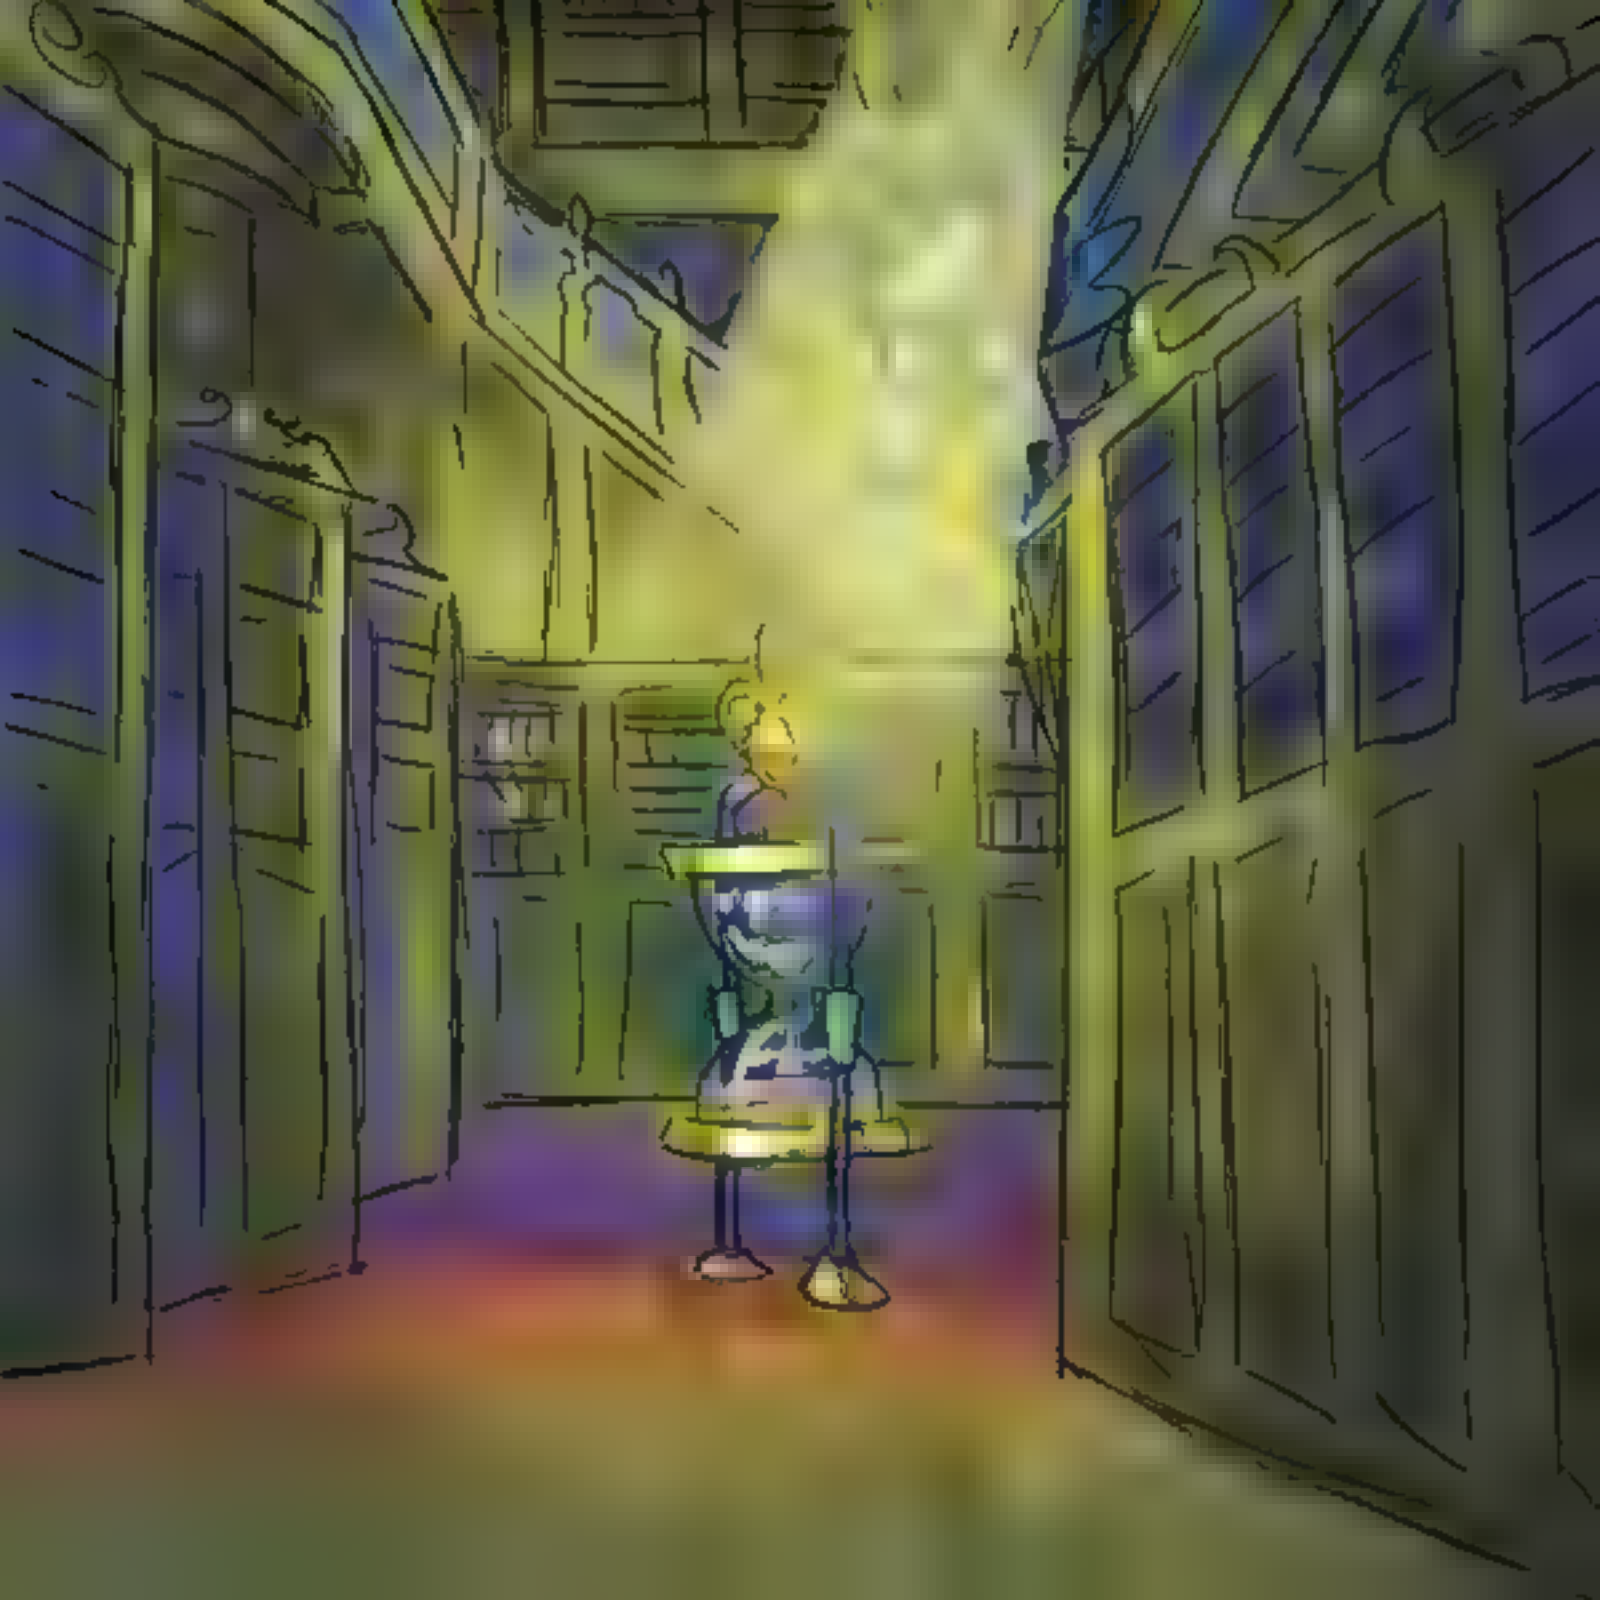


Dawn feathers
Ash Zeek sleeping in here a lot
Interesting...



I can't really figure
out anything else in there,
but this was definitely her room..

Hey, Jack now that the Doctor is out, why you don't take a look at secret files he could hide in the TARDIS? Maybe that way you can know what happens to him
since when did I have this much porn?



Hop to t Harkness you need to get to the bottom of th s First things first I'd look into that hour glass he was talk ng loo He referred to it as f t was a person I believe he even introduced you Could this be a clue as to his mental state? It's worth a shot
I'm getting some really weird readings...
Time particles...
It's almost like the Doctor's...
severed hand...?

Whatever you do Jack, don't anger the hourglass
What in the—?!

WHAT THE HELL
WAS THAT?

I GUESS IT REALLY IS MORE THAN JUST AN HOURGLASS
I DON'T LIKE THIS

Hey Jack, why don't you try to sneak after the Doctor?
THIS IS ALL GETTING A LITTLE TOO STRANGE
I THINK THAT'S A GOOD IDEA

Well Jack the Doctor never said to stay n the TARDIS this time so fol ow him, he might need help
Jack you might want to fo low h m He may not like it but he needs somepony to keep him from flipping out around D tzy

Jack you should follow the Doctor He has a tendancy to change when around Derpy Hooves AKA Ditzy Doo He may get a bit violent Ok VERY violent Do it to protect Ditzy and the Doctor
WHAT
TUG

Jack I'm not sure staying in the TARDIS is a wise move despite what Doc might think That murderer could strike at any moment and we don't know if this possibly coming from something not of this world You need to go out there and watch him, but don't get caught
COME ONNN
TUG

Jack can you leave the Tardis?
HE ACTUALLY LOCKED ME IN

YOU
BASTARD!!

Jack it's going to be alright Keep calm and carry on, right? I know you're frustrated, but all things happen for a reason You've been through hell good things are around the corner right?
Honestly, from my experiences?
No, not really.

So, Jack, would it be possible for you to tell us what else you've been doing while the Doctor has been off Celestia knows where?
Learned many uses for my wings, explored how my body worked, practiced using my hooves, just.. Adapting to everything possible.

Hey Jack, can you jump over a candle st ck?
Oh I can think of plenty of other things I've done with candle sticks...

Jack you sa d that all the killings were linked somehow How are they linked?
Music. Performance. All of them had some sort of relation to it.

tell me jack what demons haunt your dreams we all know of the dark past of the sad man, but what of you?
I CAN'T, MY BODY DOESN'T NEED TO

Jack, when the Torchwood Hub exploded what happened to your brother, Gray? Did you ever speak to him again?
GRAY WAS DESTROYED WITH EVERYTHING ELSE...

I DON'T EVEN KNOW HIM
SOME BROTHER I AM, HUH?

So Jack, Have you wondered on how to get back to your d mension?
EVEN
BACK THERE
FOR ME, YEAH..
OF COURSE I
WONDER...

SOMETHING IS
WRONG WITH HIM
AND I'M GOING
TO FIND OUT
WHAT IT IS.

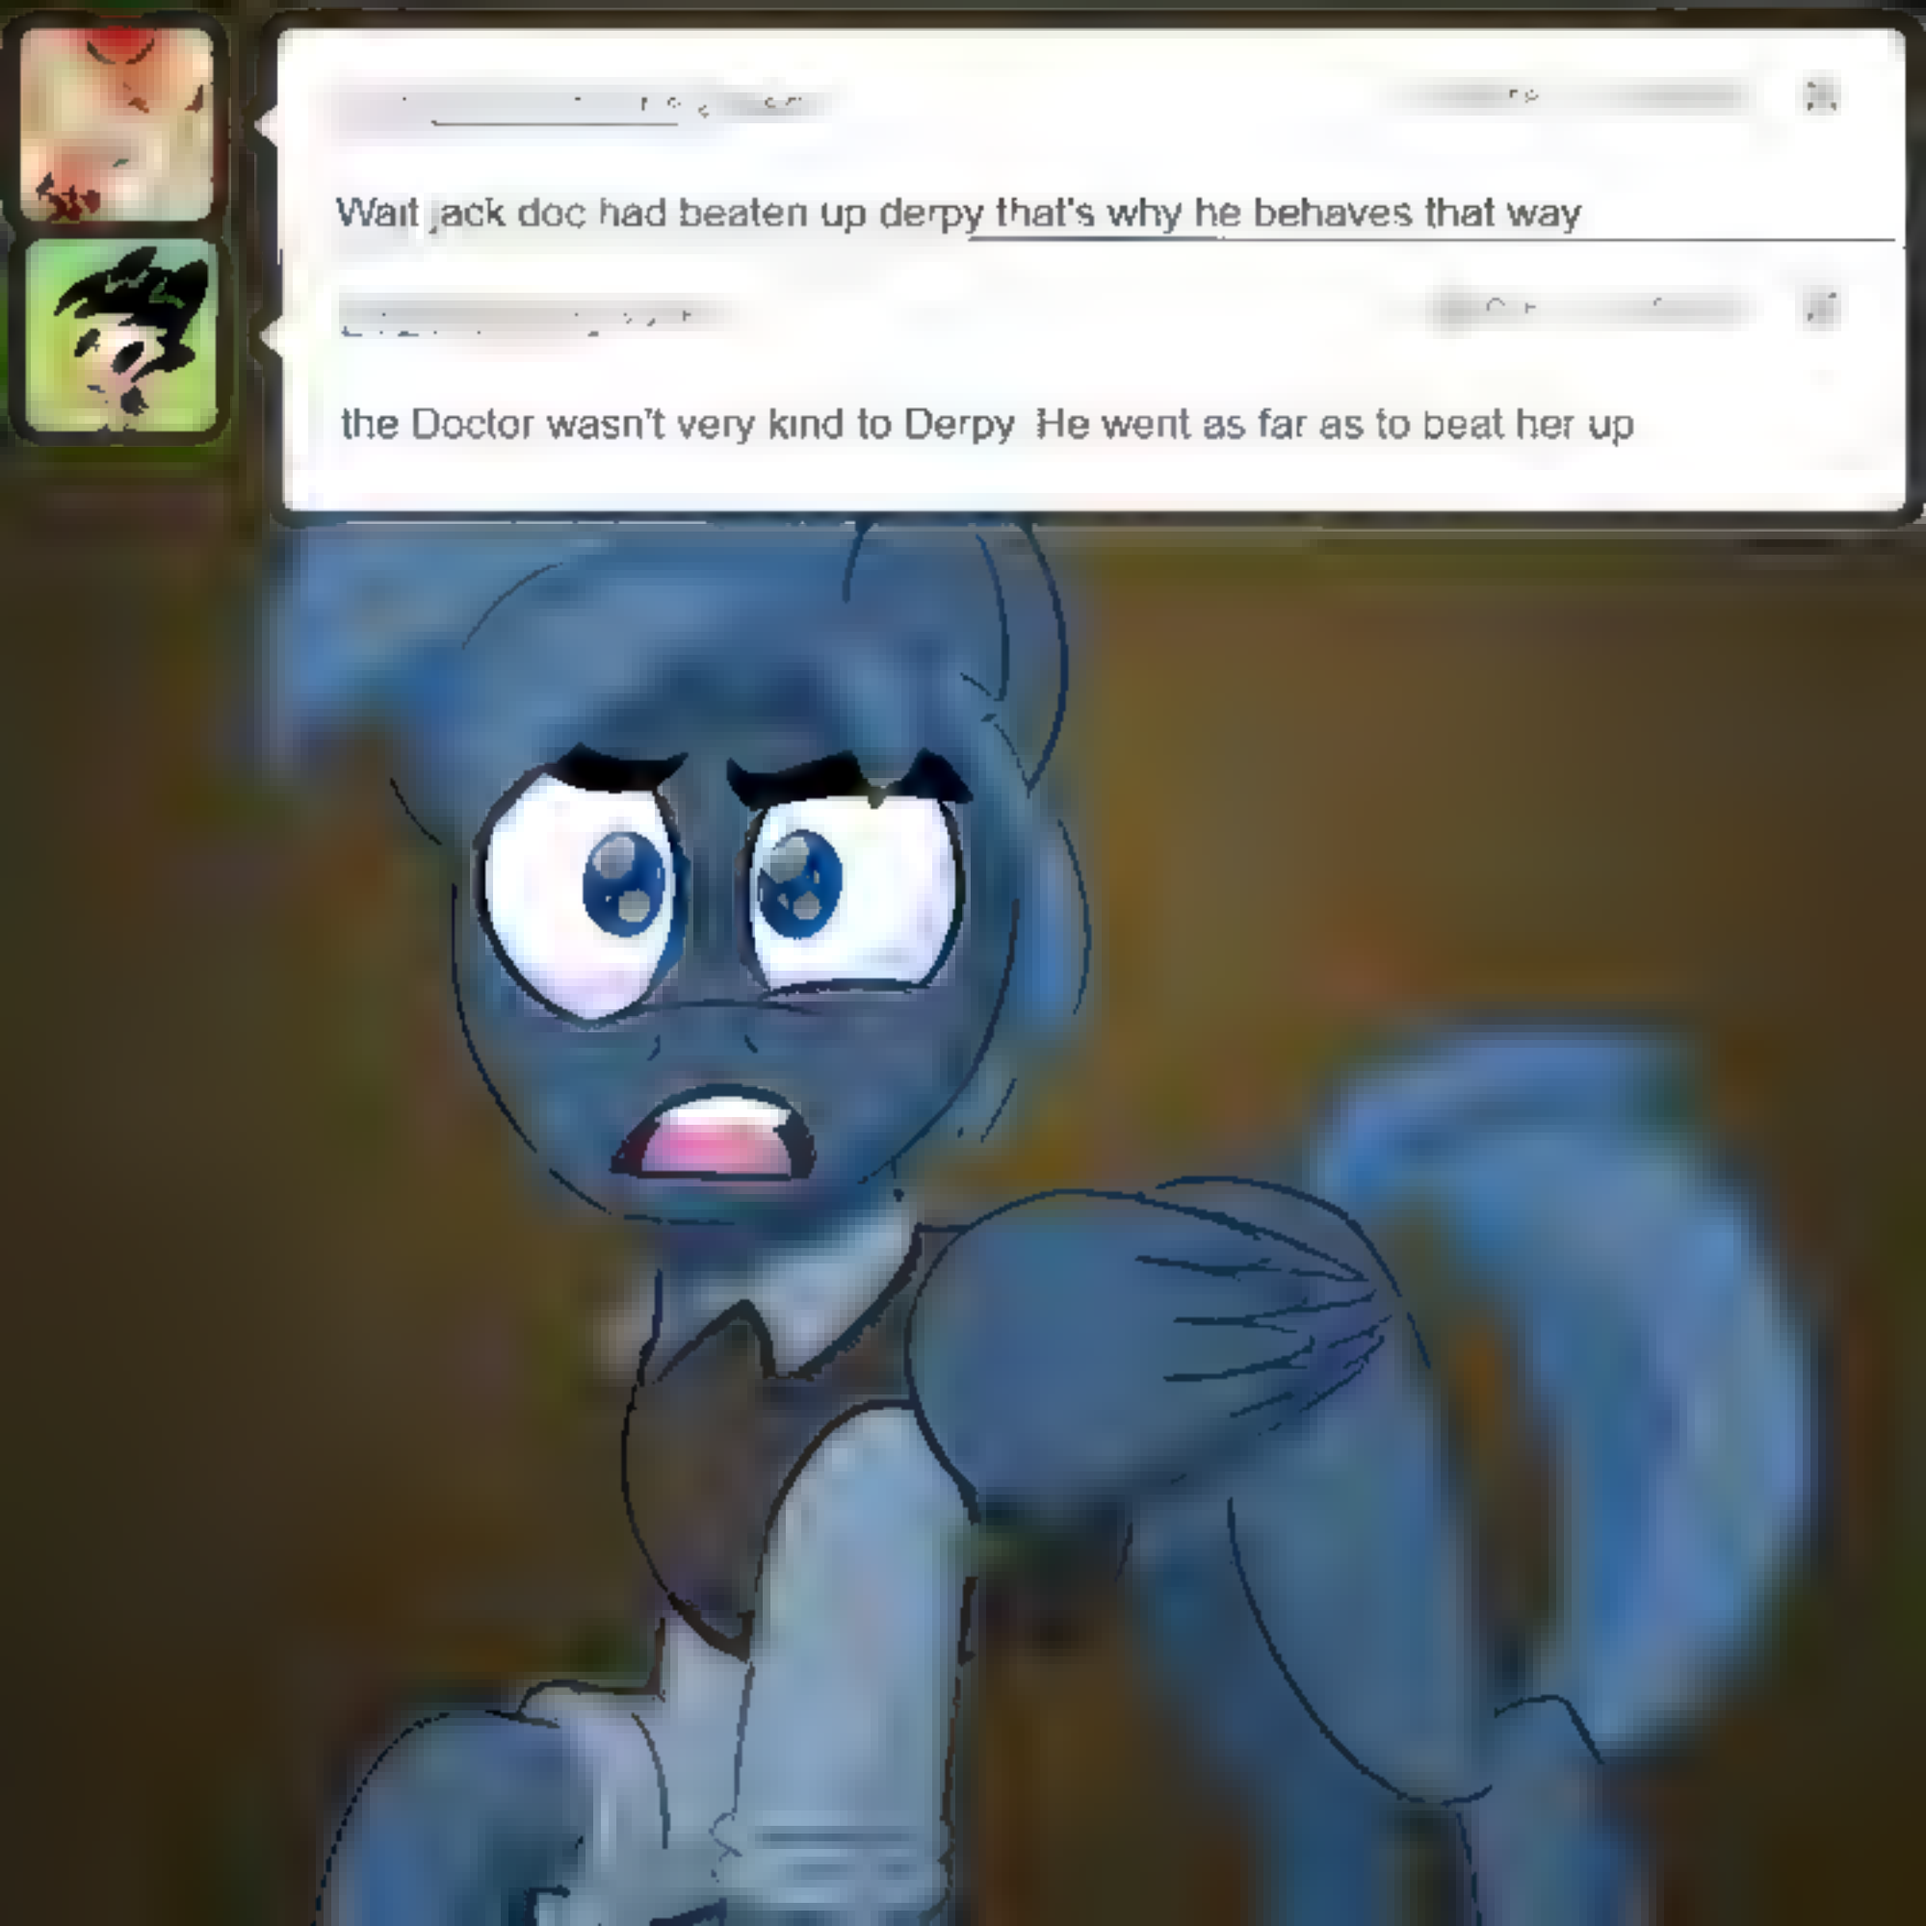
I still haven't been able to find many clues at all about what's going on...
Just what has he been up to before I got here?

Jack can you help the Doctor return to his normal self? And please don't let him get drunk again! We really don't need the universe being torn in apart
So first sex was a problem, now drinking too?

I mean, I did notice
he seemed a little
more drawn to both
but I didn't think
it seemed serious...

Hey Jack did you know that the Doctor has been beating mares drinking sleeping around like a whore, vowing to NEVER save the universe again?
What?! That doesn't sound like him at all! Don't bullshit me!

Hey Jack, has the Doctor to d you about the Master yet? And how he's just letting the Master roam free?
That's impossible
The Master is dead
I saw it myself
There's just no way



Wait jack doc had beaten up derpy that's why he behaves that way
the Doctor wasn't very kind to Derpy He went as far as to beat her up

Come on, there's no way this is the same guy you're all talking about...
He may have been a bit off, yeah, but he CAN'T be that bad!

Jack Don't be down The Doctor might act strange, but already forgot how happy he was to see you? Besides you should be to him, what he needs the most a real friend

I know... I know he needs me, but he keeps pushing me away...

um Jack? Are you aware of the fact that maybe the reason the doctor doesn't want you leaving is because he doesn't want to have yet another companion leave h m?

Yes, I know... But if I'm supposed to be a companion, shouldn't he be taking me with him on adventures...?

Are you angry at the Doctor? You have every right to be, but what he went through was not pretty Its gotten to the point where he barely recognises himself as the Doctor these days I know he's out of line and you don't deserve to be holed up like this Just, go easy on him he needs you more than ever now

I think I know what he's going through.

I won't let him down.

I know it can be hard to get the Doctor to listen to you but what you need to know s he wasn't ike this before Ditzy left. Something happened to him It ampl fed all his worst tra t He became a complete coward Ditzy didn't know what happened to him, they were separated at the t me All she knew was her Doctor didn't want to help anymore. So she left
And now I think I understand why he's so upset about her.
Why would she leave when he was clearly not being himself?
That seems like a more important reason to stay.

Jack, are you going to eave the Doctor?

No. I can't do that to him

your the last thing the doctor pretty much has
I know, and that's what worries me.

Jack, you know the Doctor better than we do Is there any hope?

He's the Doctor. With him, there is always hope.
I've seen it, and I won't give up on him.

If you actually do see Derpy, how would you talk to her? You told her to run if she ever saw you again if I remember correctly

D-Doctor...

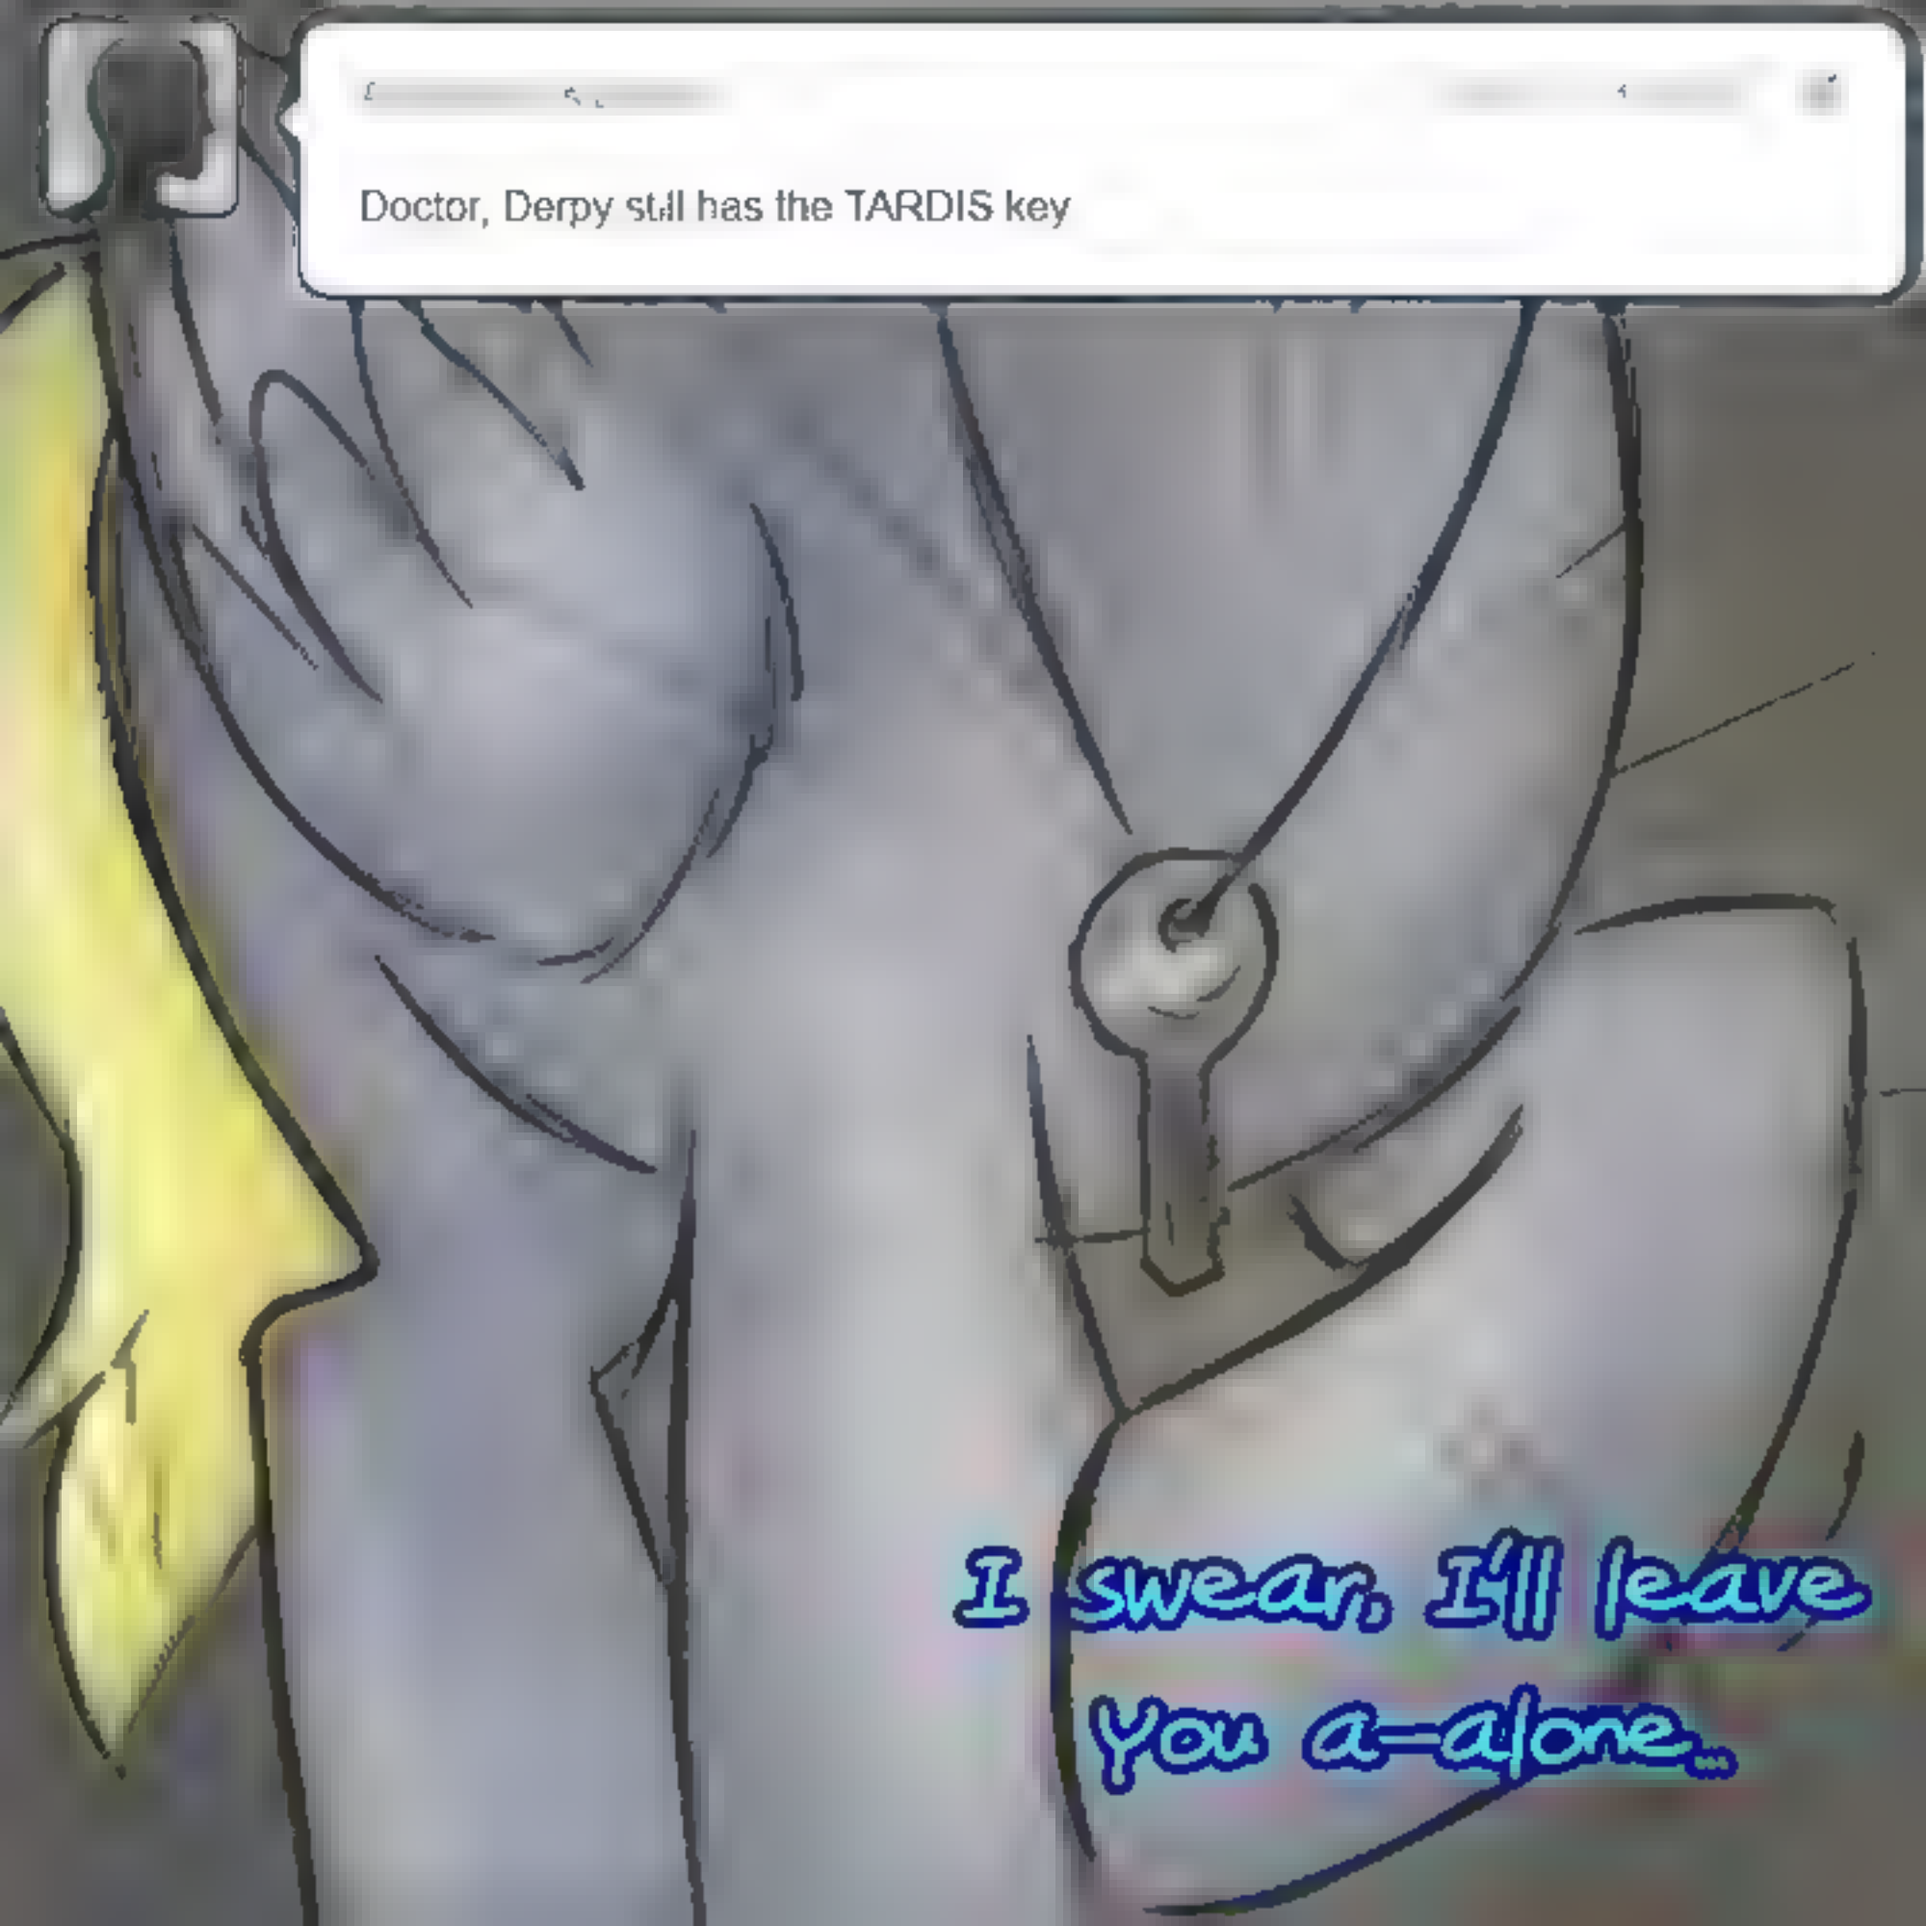
P-please...
Y-You have to... do something...

Time is all wrong.
don't you see it?!

You have to fix it
before it's too late!

Please, just one more time
th-then you can d-do
whatever you want!

And I wont..
Bother You any more..



Doctor, Derpy still has the TARDIS key
I swear, I'll leave you a-alone...

You think it's
just so easy,
don't you...?

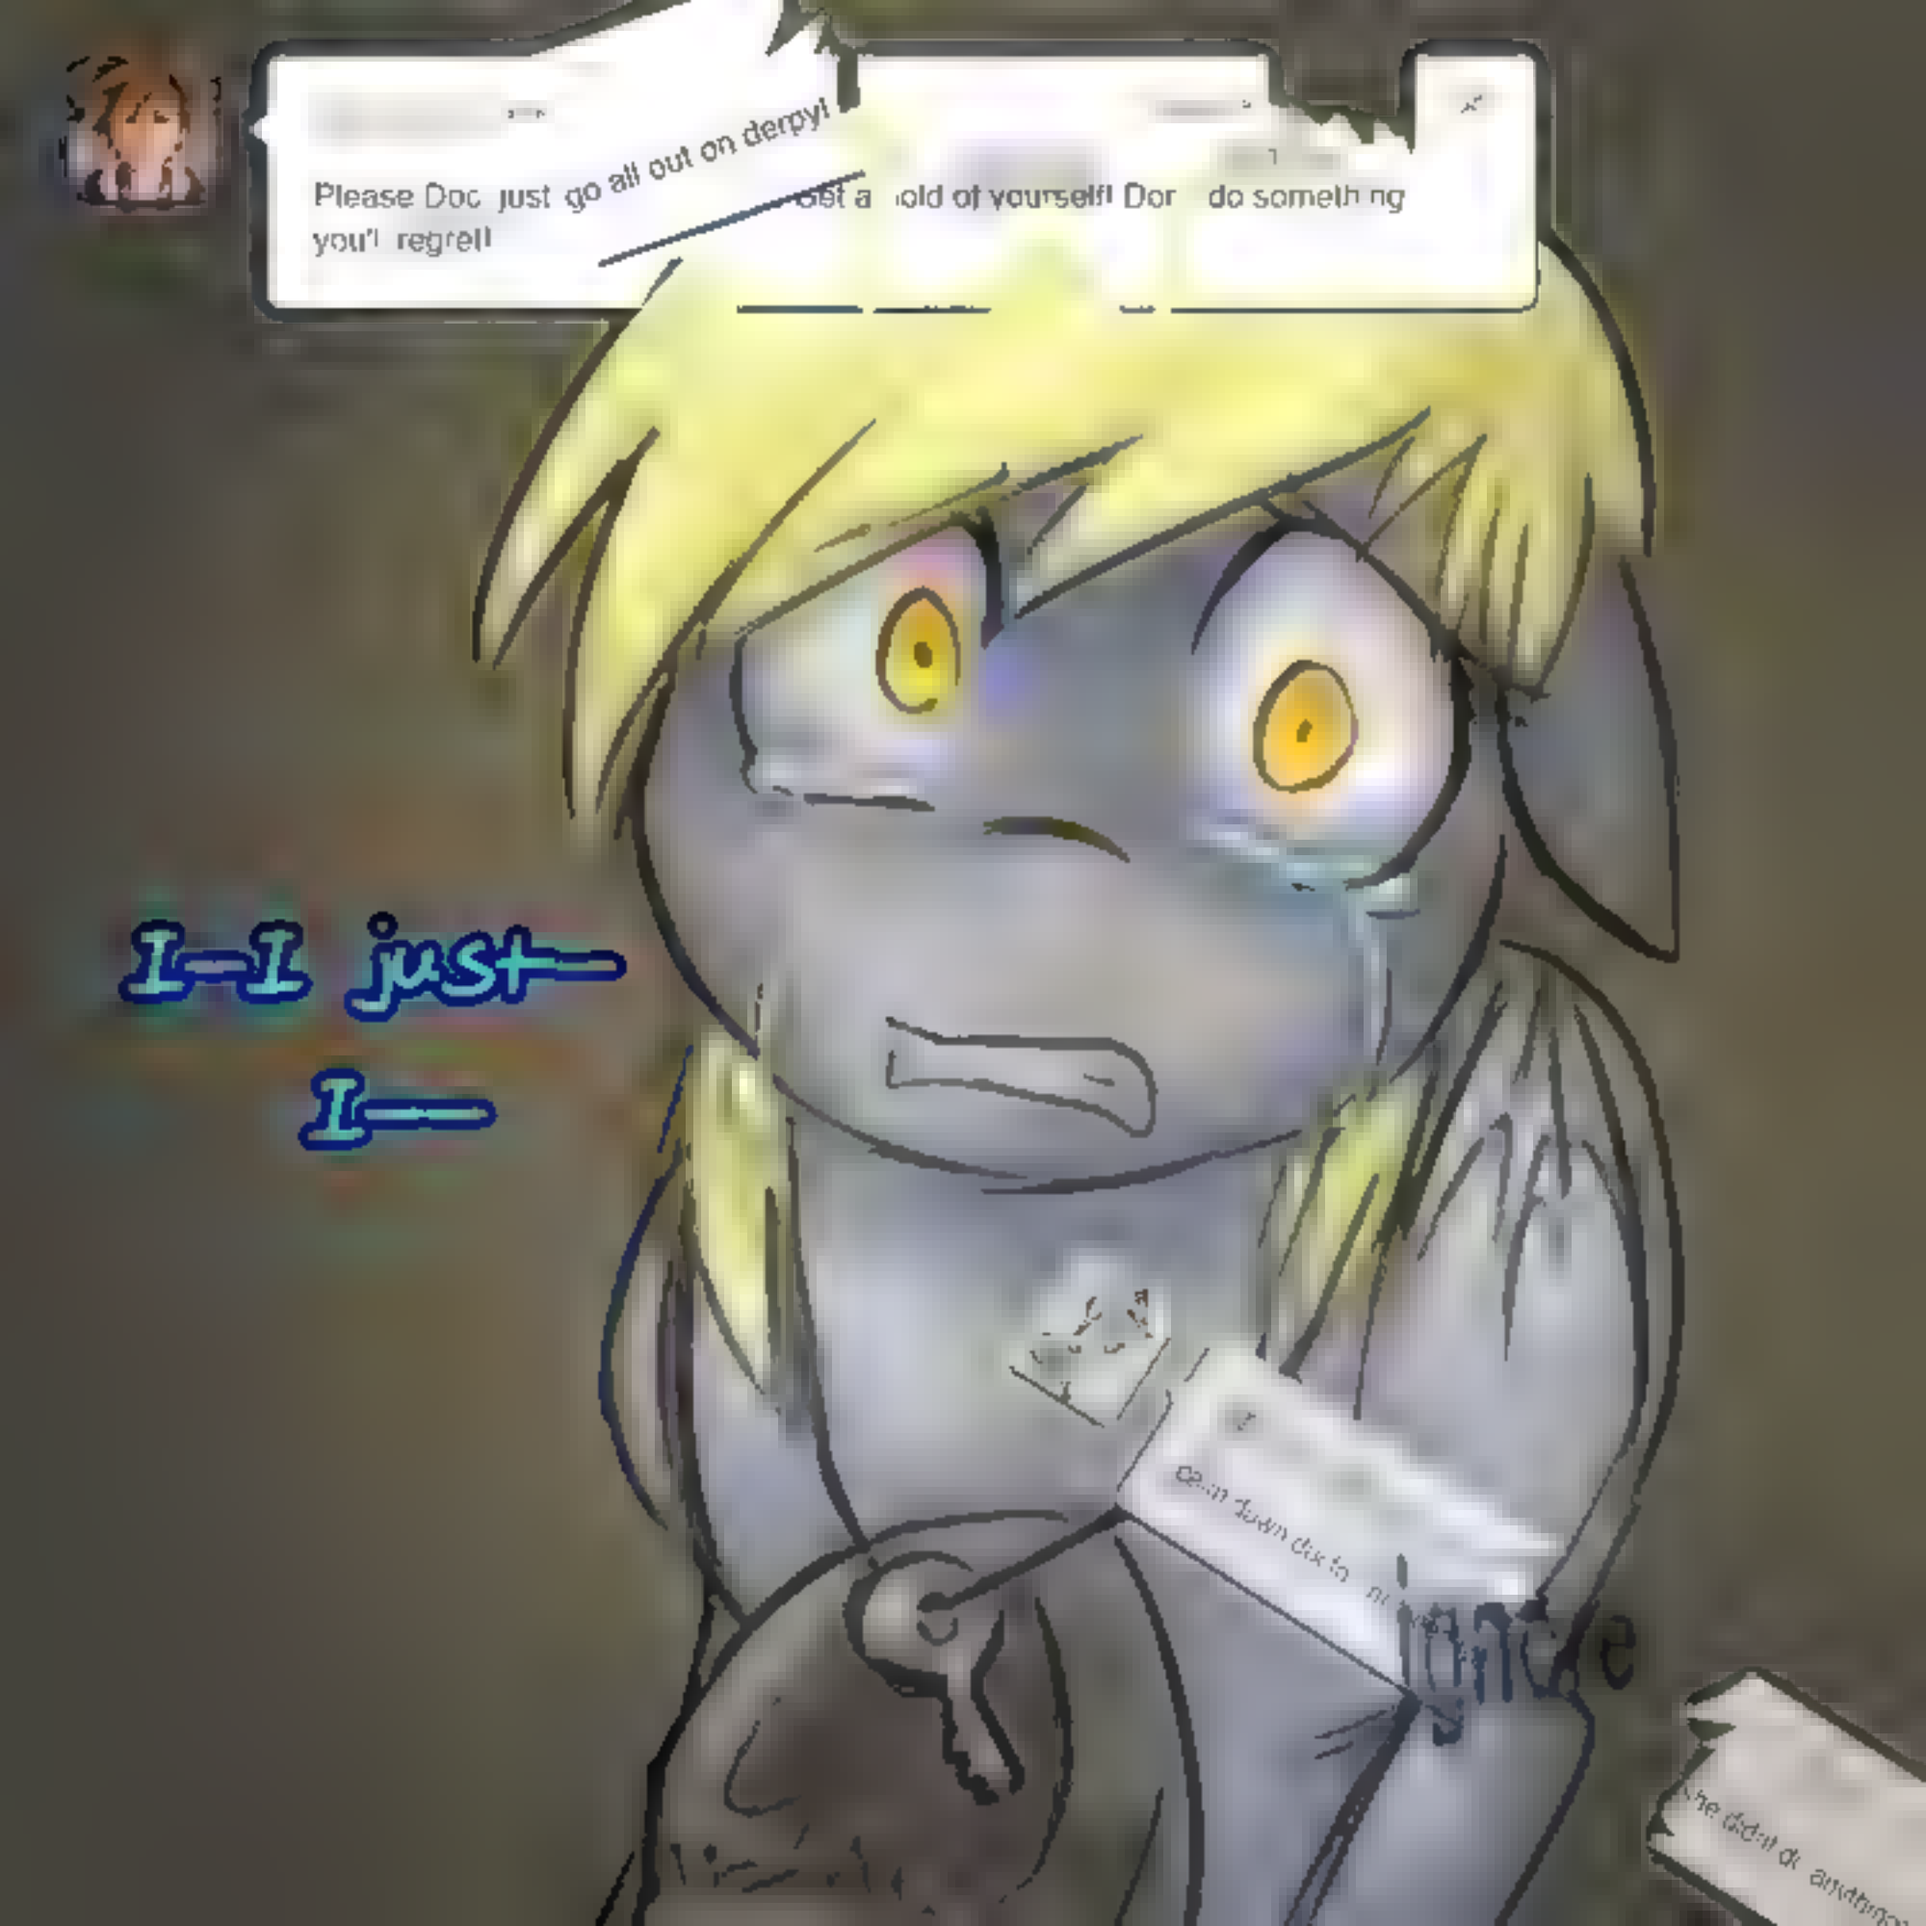
Oh, sure, of course. Don't worry about me, I mean, I risk my life all the time for the likes of ponies like you.
No Dori Don't fall from grace! Not yet!

You like that, don't you? Watching me throw myself on the line for your own amusements?
Doctor take control of yourself!

I suppose if I died for you,
you'd just be thankful you lived
another day, isn't that right?

Doctor, that's
not what I—

Why the hell are you still wearing this?!



Please Doc just go all out on derpy!
I—I just—
I—

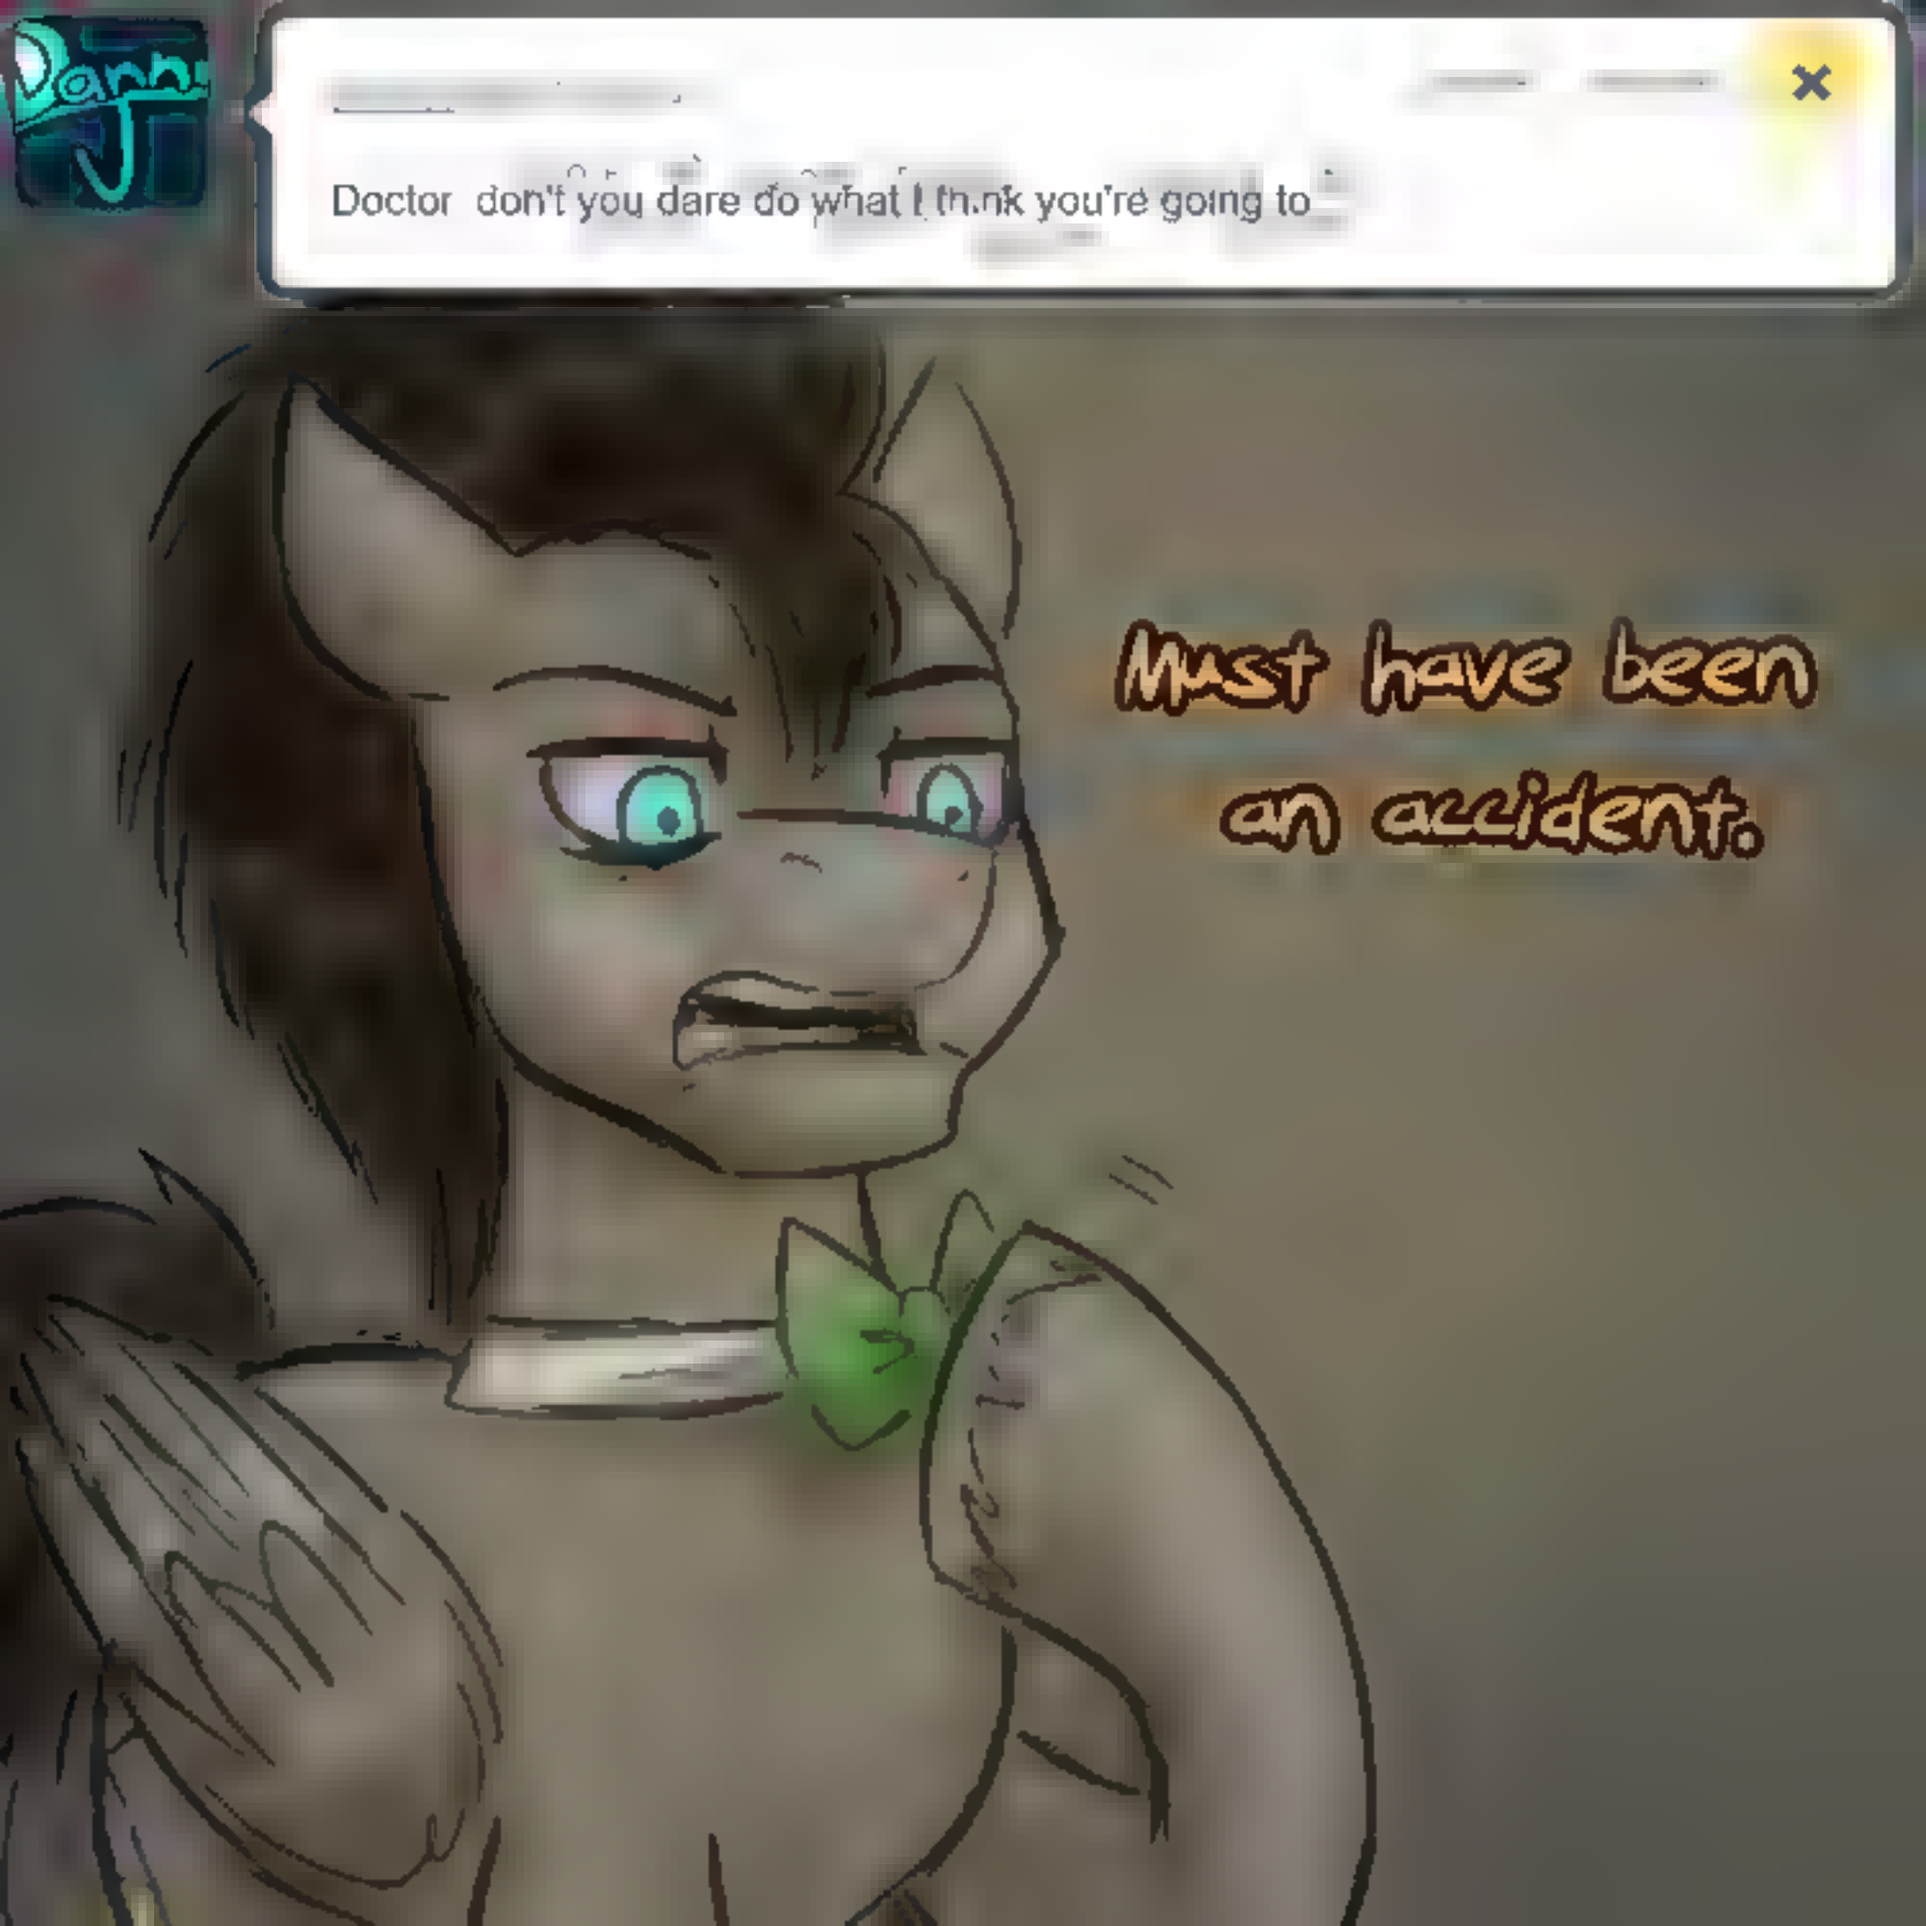
Oh no, no no no!
Traitors like you
have no right to
have this key!

You are NOT my companion!
SNAP

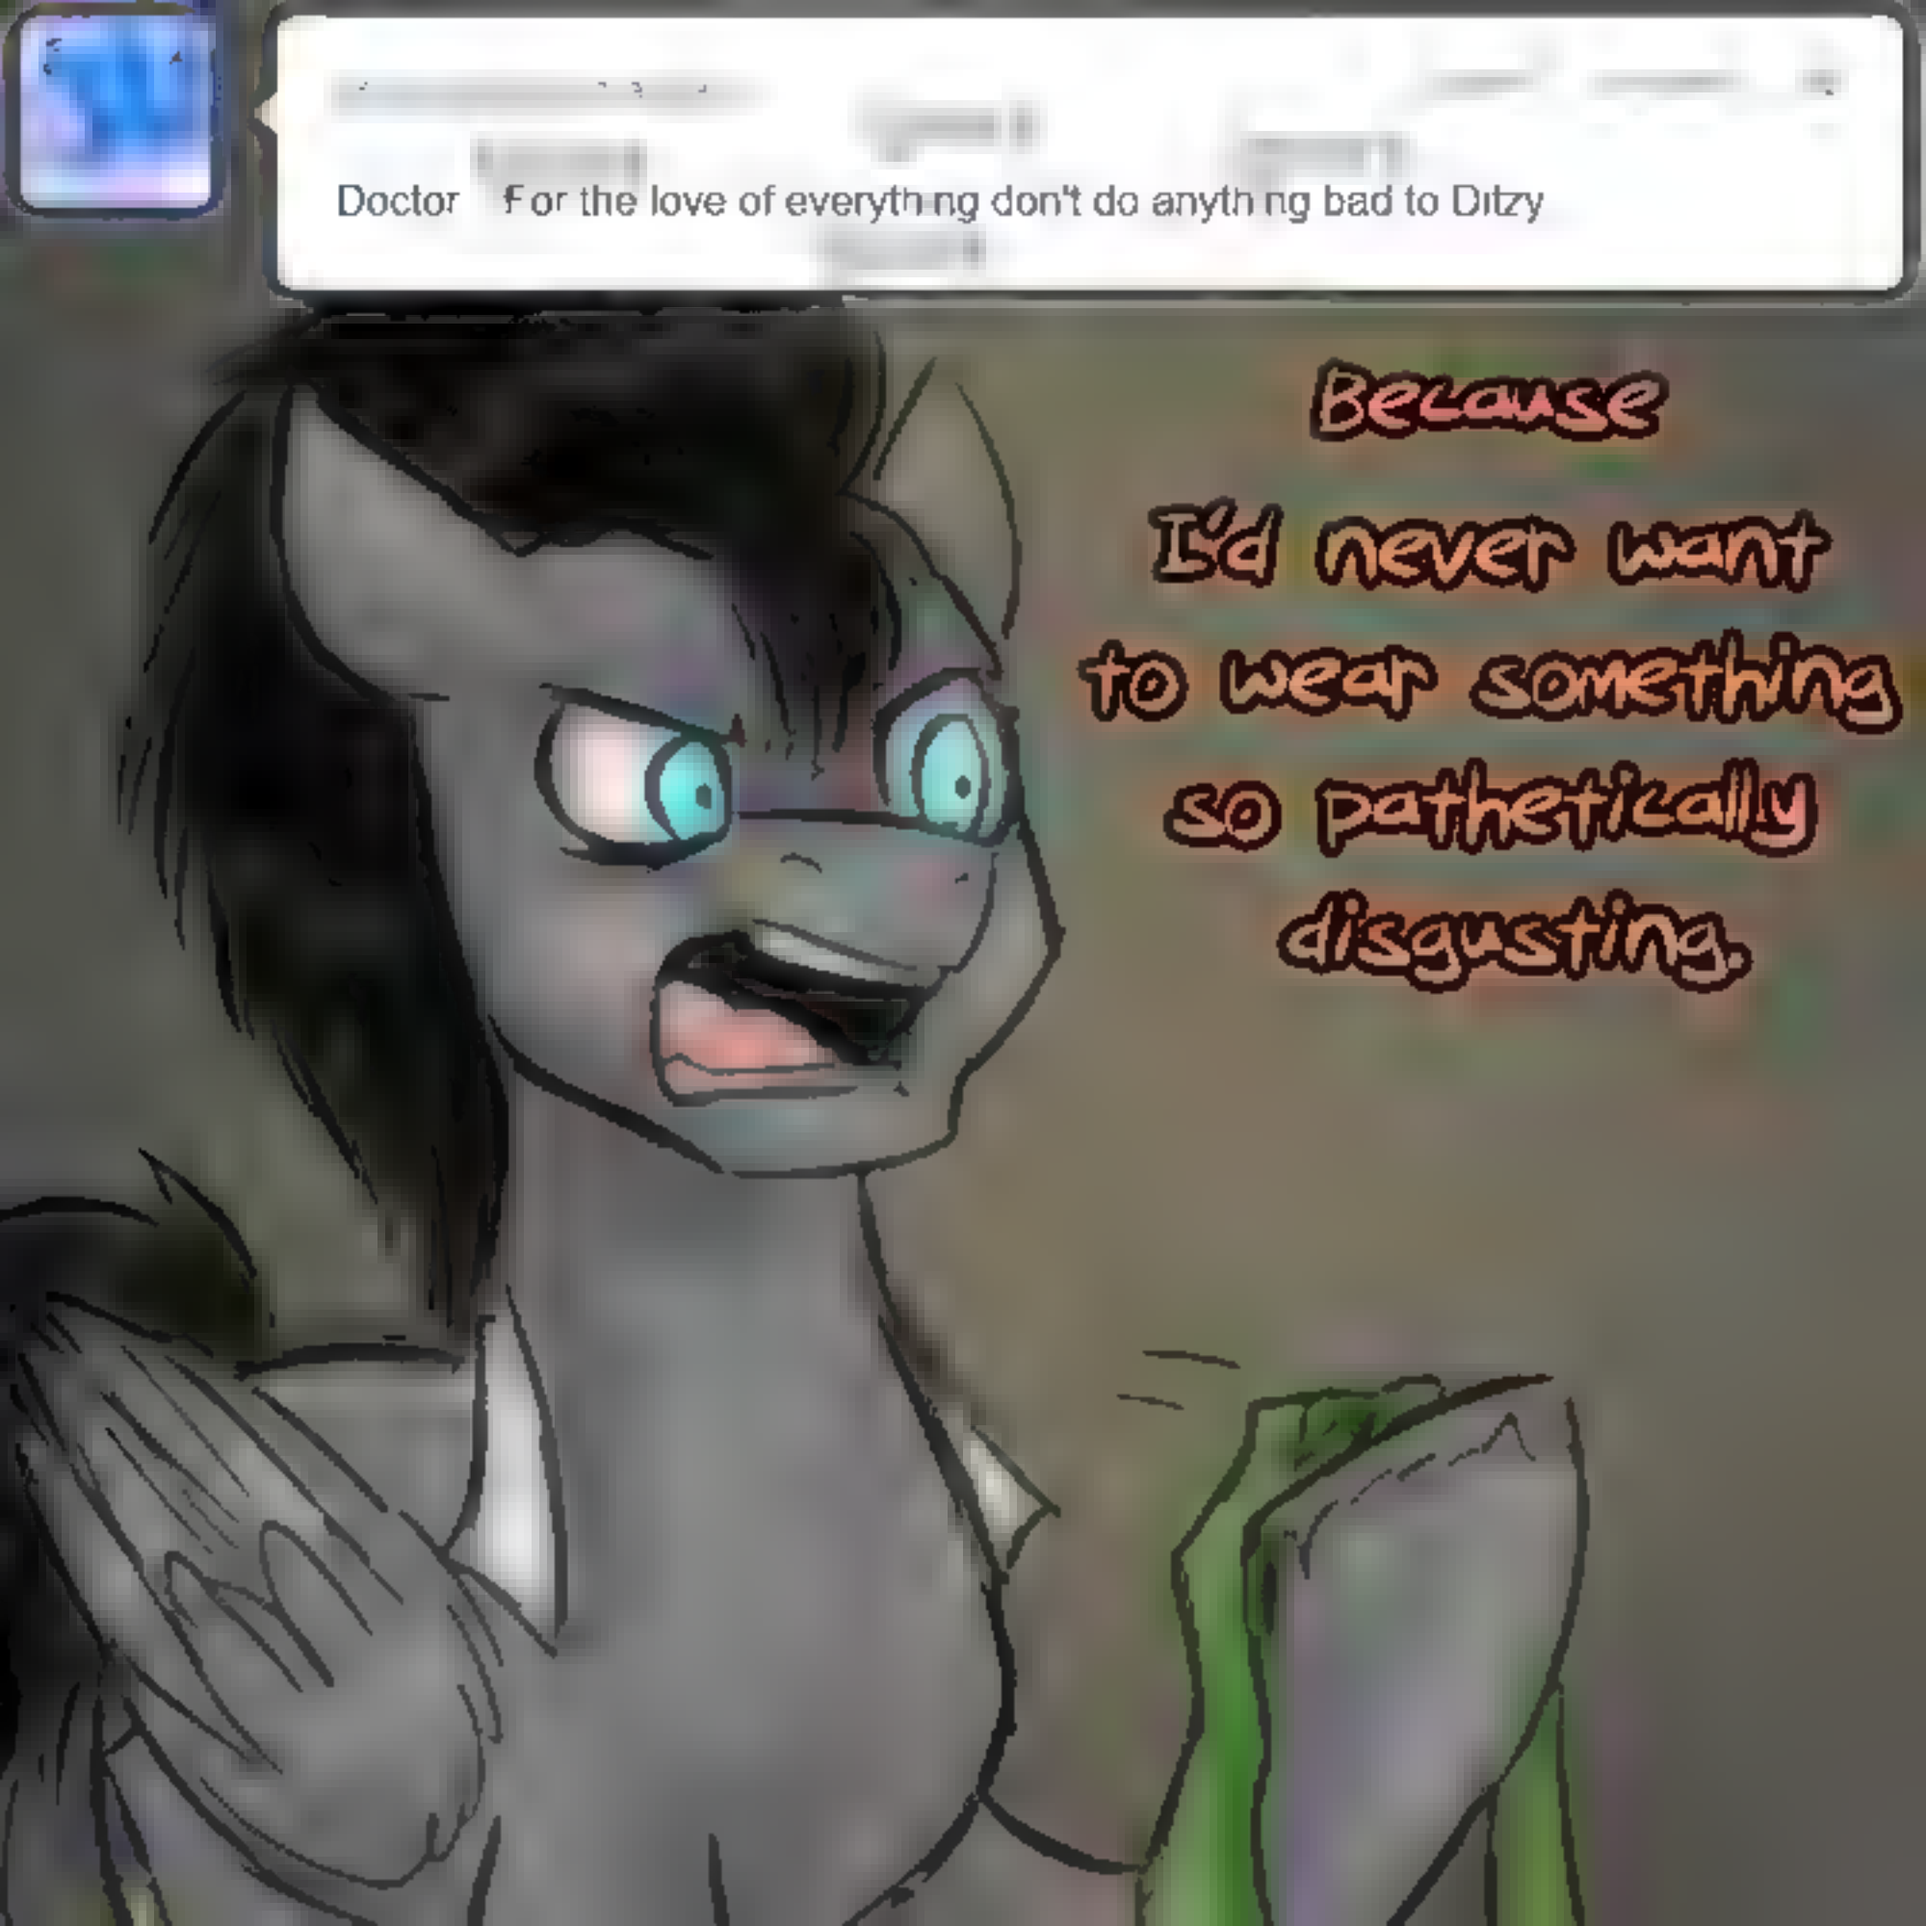
B-but what
about your tie-
I— I gave
that to you-
You're wearing it-!

What...?
When did I....?

Y-you still have it
so that must mean y--



Doctor don't you dare do what I think you're going to
Must have been an accident.



Doctor For the love of everyth ng don't do anyth ng bad to Ditzy
Because
I'd never want
to wear something
so pathetically
disgusting.

But nothing is nearly as disgusting as you...
HURT DERPY!
hurt Derpy again...!
hurt her!
hurt Derpy again
STOMP
doctor please don
Doctor don't you DARE
Doctor Don't Please she met anything do this one thing and
DON'T YOU DARE

D-Doctor
please if
you could
just listen—

I'D RATHER BEAT OUT YOUR VOICE BOX THAN LISTEN TO YOUR IRRITATING WHINING!!!
Get ready to bitch-slap somepony

BRWAK!!

Nnnh, what the hell--

Don't you DARE hurt
my brother again

If you listen real close kids, you can hear the right snap of the remaining self control echo in the Doctor's mind
What makes you think you can stop me, you little brat?!

THISH

HA-HA-HA!!
THUNK
THUNK
THUNK

Dinky. STOP!!!

No! Stop! You stop hurting him
Hurt me! I won't let him get
away with what he did

SLAM
CRUSH

—!DM—+!DM—M

...Please...

I'm sure that's
what she said too.

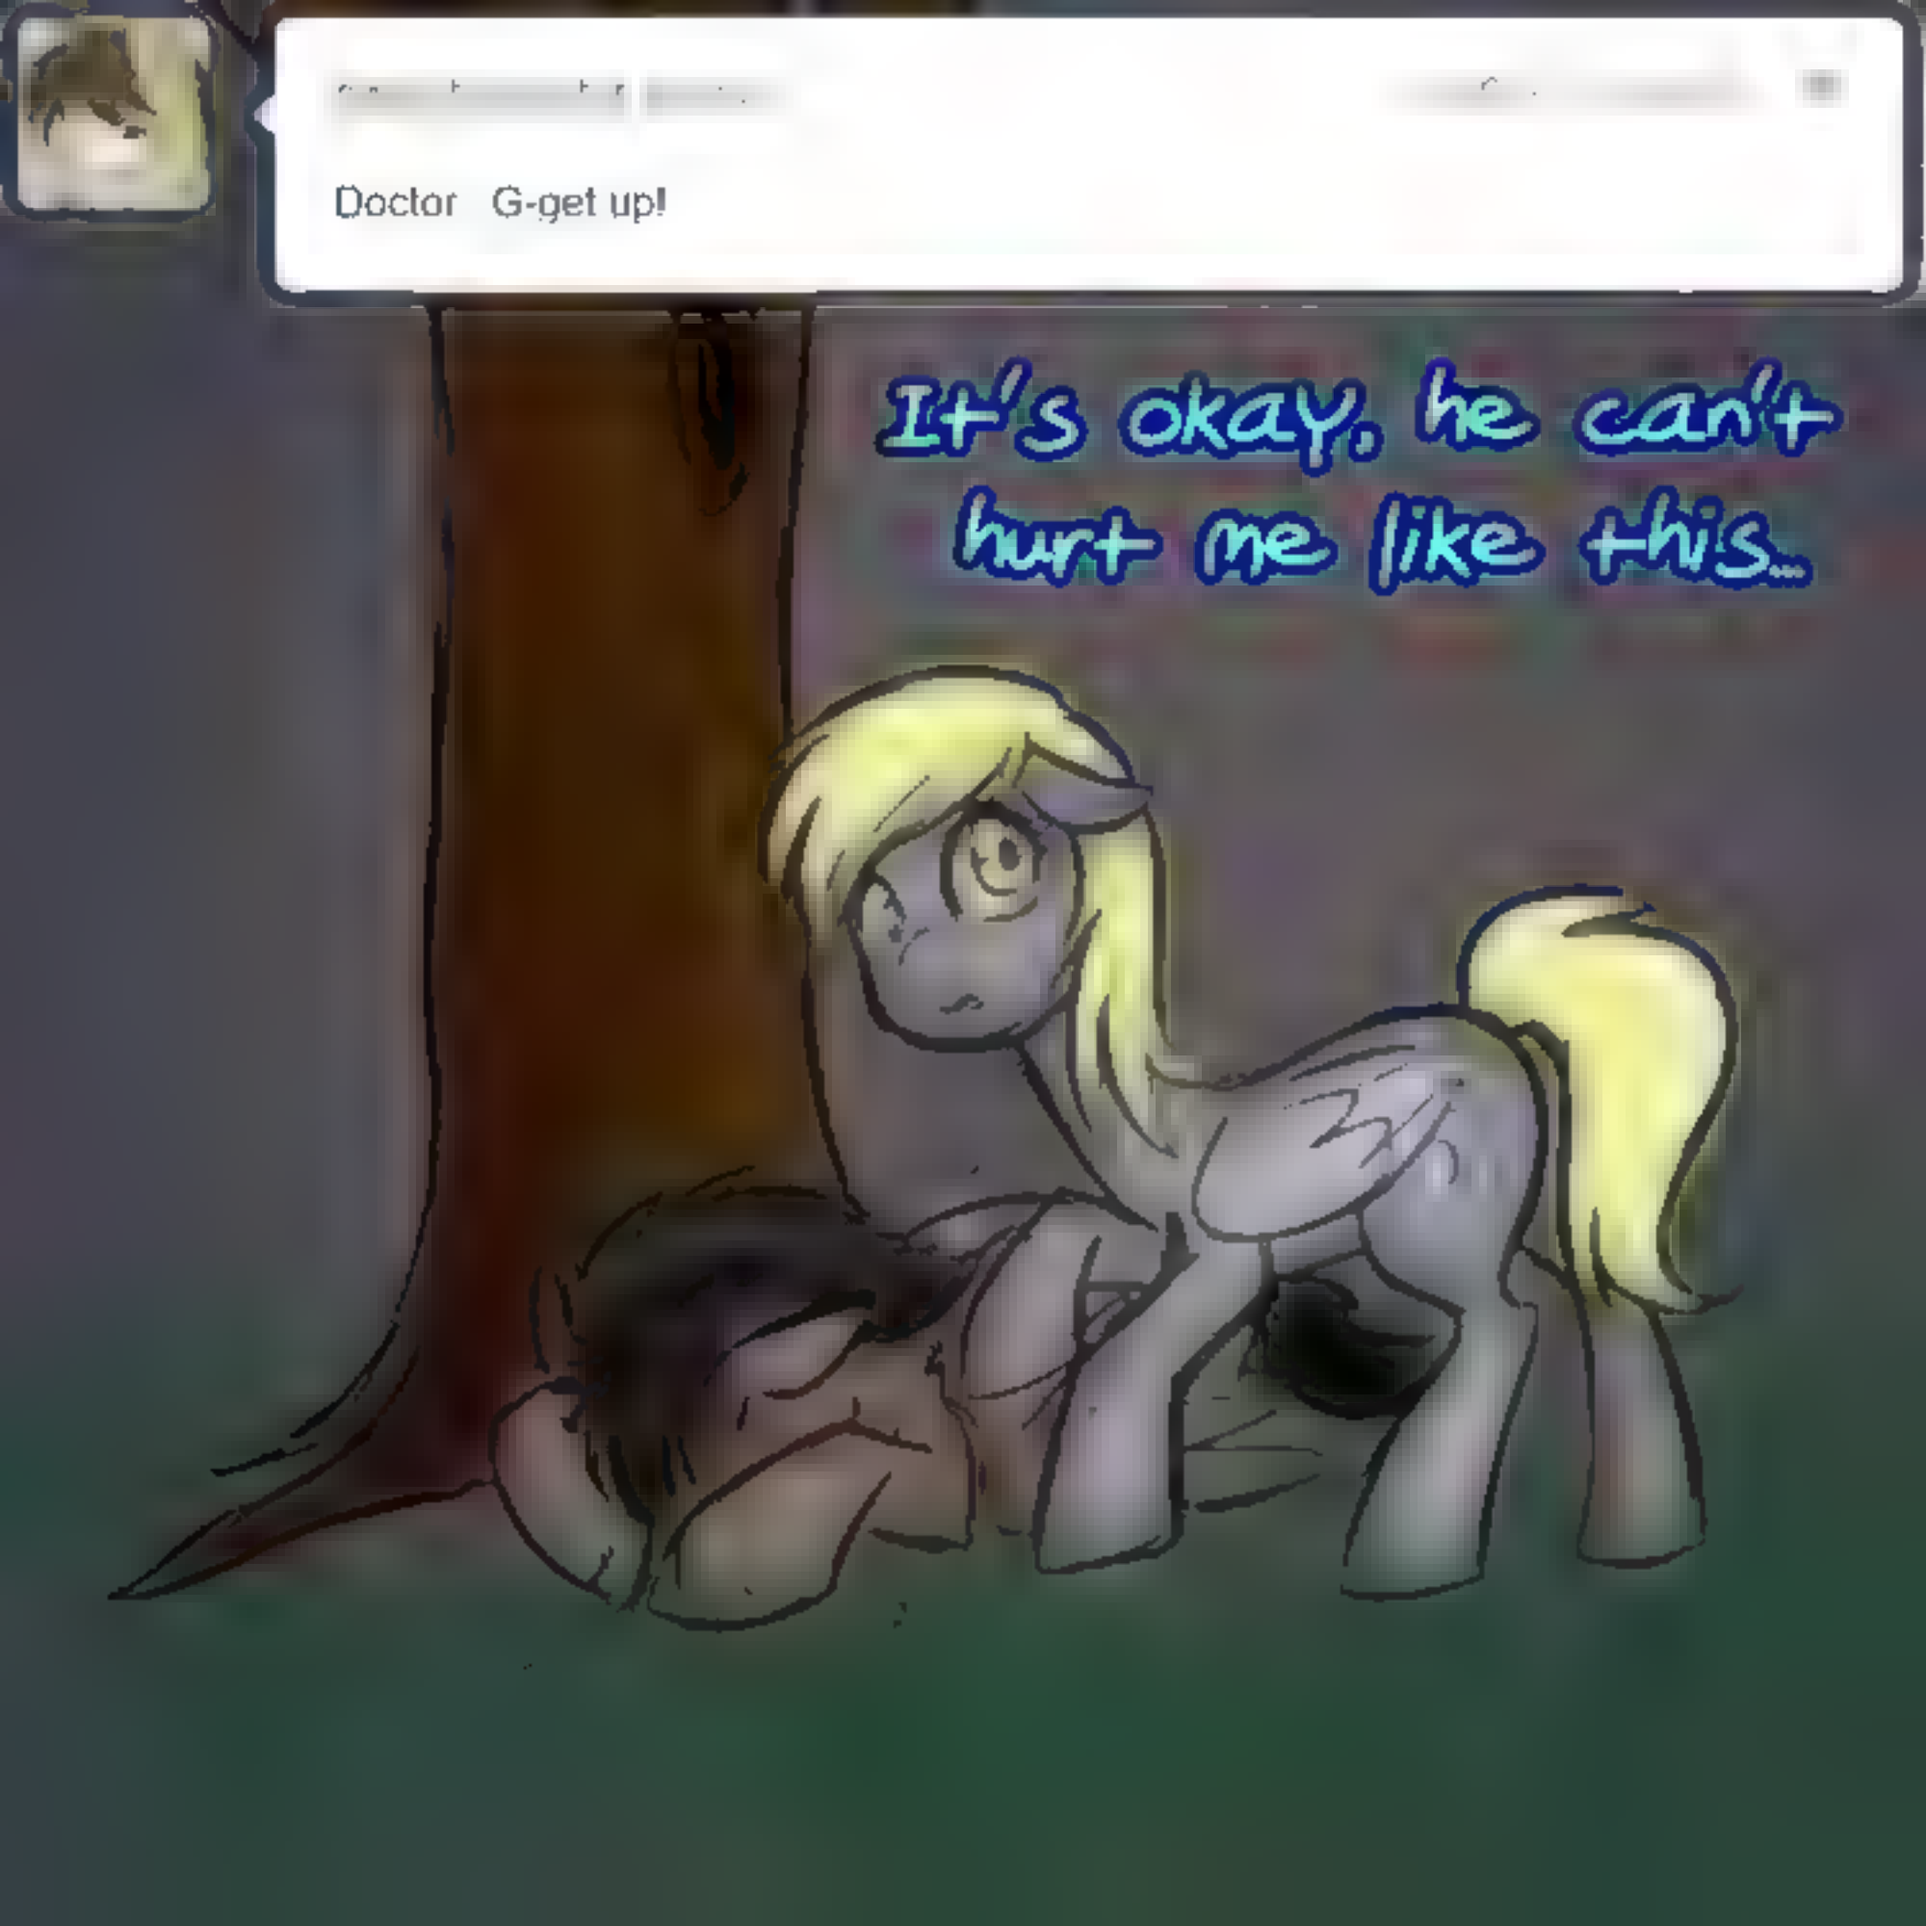
THUNK

Two wrongs don't
make a right!

Please...

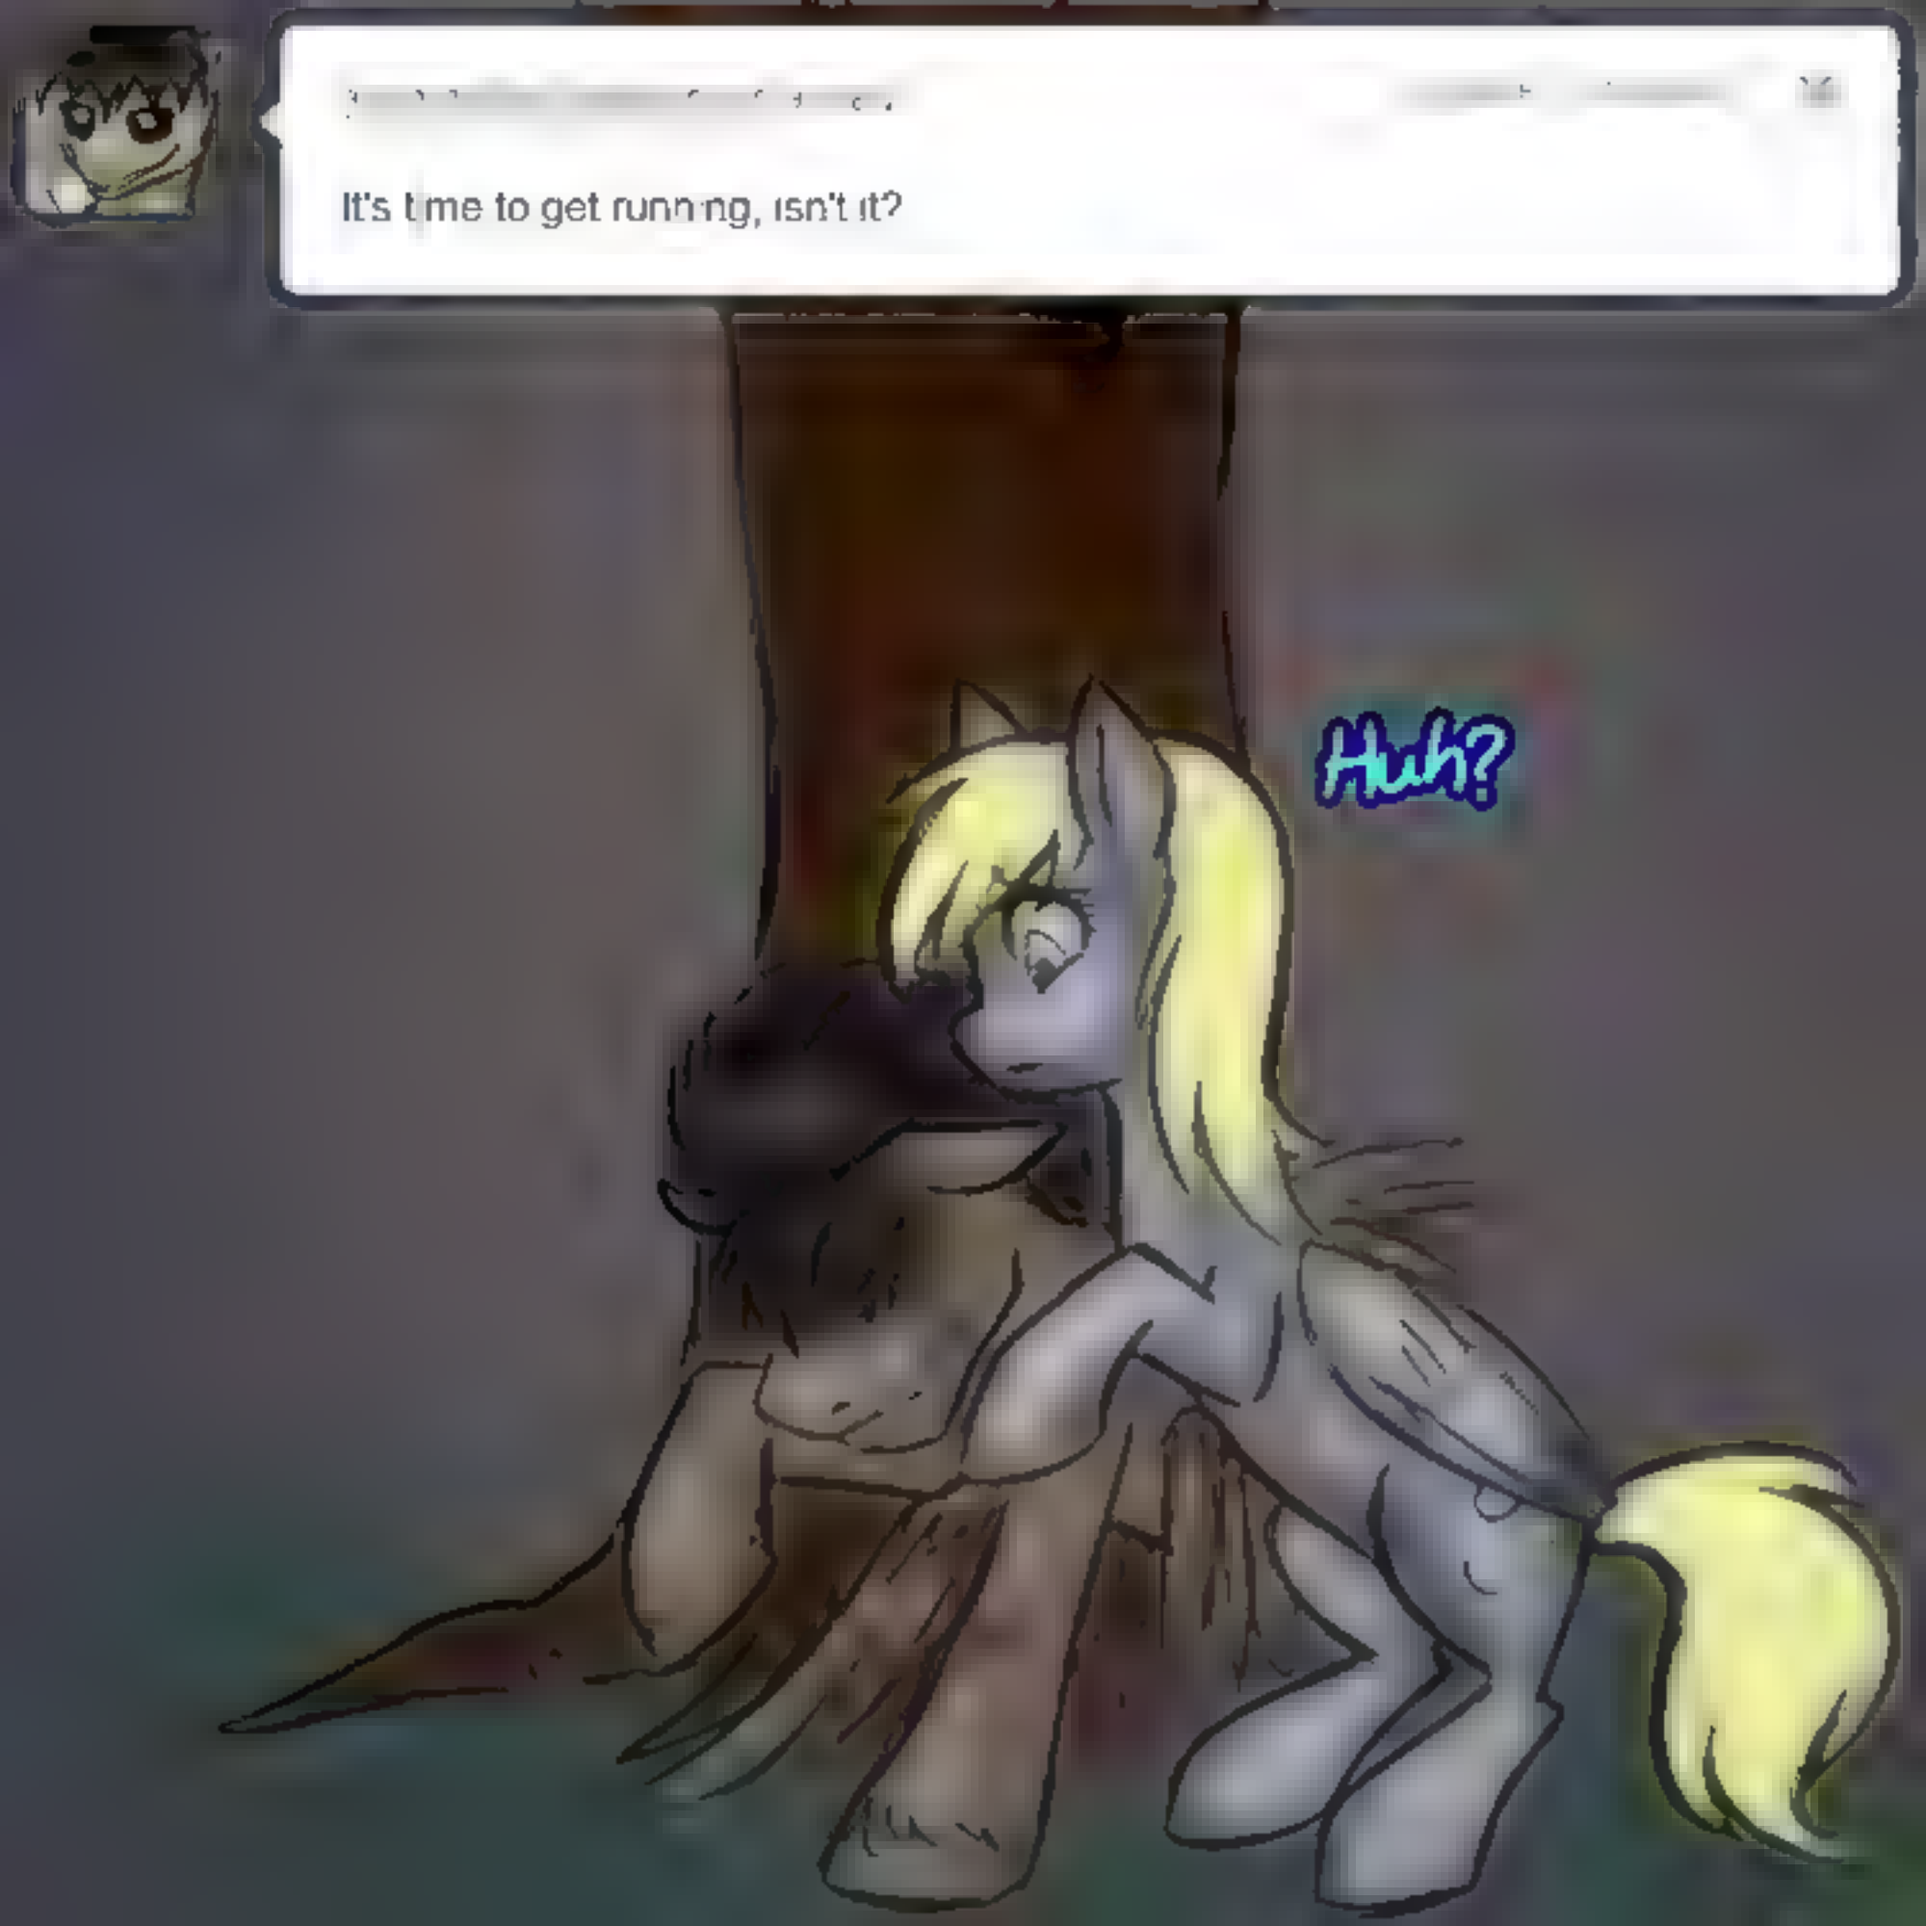
But I don't ever
want to see him again

Mom don't!



Doctor G-get up!
It's okay, he can't hurt me like this...

So what now Doc. letting yourself lose control in front of the kids But look, Derpy is still trying to help even if she doesn't know what to do You never asked her why, did you Try that some time ask her, why did she leave It may be what you need to hear On another note if you have trouble regenerating, go to Amanita the hourglass (think that's her name?), she's been storing up the life energy you breathed out Good luck Mighty Doctor, Healer of Worlds
N-no...
Why...?



It's time to get running, isn't it?
Huh?

Why didn't you
run away like
I told you?!

Get off of me...!
Do you ENJOY getting hurt?!
Doc, you have to run. You can't stay here any longer. Build up the strength you have left and run

a-random-ponys asked:

I think you've done enough damage doctor. You should get out of there before you make things worse.
You should have listened...
You should have ran
when you saw me...

Doctor you should explain the situation to them
You're all in danger...

But at this point
you should all just die.
